Campaign: The power of design

A love for impeccable craftsmanship

Ever since he was a child growing up in Istanbul, Turkey, Cengiz was absorbed by the unique fabrics, smooth fibers and captivating designs surrounding him in the streets and the textile factories where he took his first steps working as a teenager. At the turn of the century, driven by a deep yearning for growth and new horizons, he ventured into the Big Apple, where he studied at FIT college, expanding his expertise on fibers and the fast-moving behaviour of the market. After some more experience managing a home goods boutique on the Upper West Side, in 2012 Cengiz knew he was ready to set up his own venture.

Inspired strongly by the noble textures and unmistakable artistry of turkish weaving, Cengiz created Duman Home, a shrine to house comfort and easy living. With a distinguished collection of linens including private label cotton towels, soft and breathable sheets and duvet covers from Turkey light and airy enough to motivate the perfect night's sleep, Duman home quickly established itself as a must in the New York circuit. Working with crafty manufacturers from a range of vibrant cultures also near to his heart such as India, heritage became a strong element of Duman's spirit. One-of-a-kind local findings further turned the store into a destination for anyone passionate about great design. Quality american goods from distinguished brands such as Downright, Apotheke and Pendleton are hand selected by Cengiz, whose hope is to grant high-quality, meticulous craftsmanship affordable to a growing public.

Following a celebrated response to Duman's first opening in Cobble Hill, Brooklyn, Cengiz decided to take his dream to new heights introducing two new stores in New York and launching Duman's website offering nation-wide shipping. Bearing a deeply-rooted identity and natural charm, plus a talented team always ready to provide creative ideas and advice, Duman Home is here to stay.

About the Owner

Cengiz grew up in Istanbul, Turkey, where he worked in textile factories during his teenage years. He always enjoyed working and learning about different patterns, fabrics, and styles, which led him to his next venture. In 2000, Cengiz moved to the United States and attended

college at FIT, where he continued to study textiles and merchandising. His path led him towards working at a home goods boutique on the Upper West Side, where he began as a salesman and moved his way up to becoming a manager. In 2012, Cengiz was ready for more. He decided to open a home goods store in Cobble Hill, Brooklyn. It was to sell local and international goods from places near and dear to his heart, while also keeping the local vibes alive. When Duman Home opened in **Brooklyn**, he never could have imagined the outpouring support that he received from the community. The business grew and eventually spread to other locations. Most recently, Duman Home opened up in **Hoboken** and has a steady flow of customers walking in with design ideas and walking out with bags full of gorgeous decor items, home goods, and fragrances.

About Duman Home

The store is filled with both local and international brands. Duman Home carries lines from local businesses like Brooklyn's own Downright {which features down feather + alternative pillows and comforters} and Apotheke {luxury home scents}, which is also from Brooklyn. Another customer favorite is the Pendleton line of wool blankets, which are truly a facet of quality American goods. Team HG is also {low-key} obsessed with the Fishs Eddy New Jersey inspired kitchen goods. **Duman Home manufactures its own private label cotton towels, sheets, and duvet covers from Turkey.** Cengiz works with the manufacturer to create this Duman Home line of goods. The towels are plush and luxurious and come in many different colors. The store also sells **Indian Kantha throw blankets made with vibrantly colored textiles from India.** These blankets add a stunning pop of color to any room and look great at the foot of a bed or draped over the couch. The store will also feature seasonal and holiday decorations throughout the year, too.

Duman Beach Line

An inviting, plush beach towel is a must-have to truly shine this summer, whether lounging at the beach, relaxing at the pool or staying at a dreamy hotel. In Turkish tradition, hammams are a century-old heritage from the days when bathing was an institution and leisure was revered as a fundamental cultural practice. Just imagine how serious we are about softness and long-lasting quality! We've perfected the classic beach towel and crafted multipurpose hammams that will make your skin grateful. Not only are they extremely delicate, unusually absorbent and fast drying, they are gorgeous enough that you can throw them on your couch or sofa to create a more inviting spot, or even wrap it cozily around yourself for extra flair. Their lightness also makes them ideal for traveling or carrying anywhere as the ideal gift.

2- Hammam Towels also known as Pesthemal and Fouta towels. When you receive a hammam towel the first thing that you will notice is how soft they are. Which makes them perfect for any skin type especially if you have sensitive skin.

3- Endless use. INDOORS & OUTDOORS. Our Peshtemal is a multipurpose towel. Whether it is used as a regular towel, beach towel, or to use at a pool, yacht , spas or in your bathroom. It can also be used to decorate your home as a throw for your couch, sofa and chair. Soft and stylish it is perfect to wear as a shawl.

4- Makes a great gift. Multi -purpose it is perfect for all celebrations. Let your loved ones enjoy the soft, luxury embrace of the hammam towels. (Viventive.com)

5- Because peshtemal towels are flat-woven they're extremely light and take up very little space, making them the perfect travel companion. (Turkish towel company)

6- They are also wonderfully versatile. Of course they make fabulous bathroom towels. But you can just as easily wear your peshtemal at the poolside or as a beachside wrap. Many celebrities

have been spotted wearing one along the beaches of st.tropez and Cannes. The peshtemal can be worn around the body like a sarong or pareo for a chic cover up, it's light and airy and feels great against your skin. (Turkish towel company)

7- Our Peshtemal towels are made from the finest Turkish cotton. They're luxurious, absorbent and quick drying and maintain their shape and texture beautifully even after many washes. (Turkish towel company)

Lifestyle Brochure

1. Our life is about being comfortable. That's who we are.

We believe in comfortable living.

Comfort begins with a home that makes you feel like yourself.

2. Urban lifestyle

New Yorkers know better than anyone what it means to live life to the fullest. Between the hustle and bustle every time you hit the street, the fast-paced rhythm exuding from people and the never ending activity everywhere you set your eyes or your heart on, this truly is a city that never sleeps. That's why your home should be the ultimate dream spot, a place where you can kick off your shoes, take a deep breath and experience wellbeing.

3. Hygge

There's no one way to define what hygge entails. Hygge can be a warm cup of coffee on a chilly winter's morning, a soothing jazz music playing in the background, a board game night with friends by the fireplace, or reading a good book curled up on your favorite couch. What's essential to creating hygge can be different for each person, but soft fabrics, natural materials and colors that reflect light are decisive to enhancing the coziness inside your place and turning each spot into a comfortable refuge.

4. Relaxed luxury

We are all about houses that feel smart and elegant without being excessive. A timeless touch like a scented candle, a beautiful fabric, book-lined walls and combining the right textures with objects that tell a story are some ways to pull off a noble space that's still low key. Relaxed luxury reflects in the time you take to make your home feel special and approachable.

5. Wabi Sabi

There's a special kind of beauty to be found in imperfection, and we can all agree that a spotlessly arranged place does not reflect the ins and outs of daily life. We believe in snug, relaxed homes that can, at times, be messy but also joyful, loud and booming with energy. Our purpose is to focus on what makes each home unique and enhance the beauty that already exists there.

6. Jen & the Earth

Meet Jen, an amazing earth defender, entrepreneur and enthusiast who's part of our Duman family. She creates, connects and inspires us to become more coherent every day!

7. Sustainability

Every day we learn a bit more about our planet and the positive impact we can achieve as a business. We make sure our products are manufactured minimizing environmental effects and taking care of our artisans' practices. Making full use of our resources, we strive to optimize processes and take care of our beloved earth.

8. Bridgewater

Our Connecticut warehouse is our connection to the farm and the natural rhythm of the outdoors. Existing in the country has its outstanding luxuries and Duman Home feeds on the fresh vibe of this scenery and the quality of life by nature.
