## The Gattopardo Watch by Dolce & Gabbana

If you're looking to invest in some wrist bling this season then look no further than the Gattopardo by Dolce & Gabbana. This timepiece is the latest addition to the DG7 watch family distinguished by its intricately carved, pink gold casing using a technique called "Ornato". This process alone takes over 20 days for master engravers to complete. Together with a black mother of pearl dial and alligator wrist strap, it makes for a decadent timepiece that embodies the essence of neo-baroque craftsmanship for a supreme display of horological art.

Pink gold engraved watch with black mother of pearl dial by **Dolce & Gabbana**, £17,500. [dolcegabbana.it](http://dolcegabbana.it)
