Big-buckle belts, denim-a-plenty and Cuban heel boots, this Autumn/Winter, DSquared2 makes the case for going west with your wardrobe

For the show that marked its 25th anniversary, DSquared2 sent model after model stomping down the runway in plaid shirting, bolo ties, leather trousers, statement buckle belts, fringed jackets and bags and low, low-waisted denim jeans. It was a stampede of modern cowboys. Of course, no cowboy, modern or otherwise, is complete without a pair of boots and DSquared2 has given them a shiny makeover, taking you straight from the ranch to the streets of London. Crafted from butter-soft Italian leather, with stitching punched into a pointy toe, these mean business. You have no idea how versatile cowboy boots can be until you've slipped on a pair. Looking to refresh your go-to suit? Consider going Wild West formal and pull these on with your next tailored look. Or team with faded dark denim for a rock'n'roll vibe. However you wear them, get ready to saddle up this season.

Boots, £775. Bag, £785. Sunglasses, £199.
