"Hungry For Education" Scholarship Winner Inspires New Fundraising Program

In partnership with leading non-profit minority advocacy organizations, the Denny's Hungry For Education program proudly presented more than \$50,000 in combined scholarships to 33 deserving students. Our top winner, Ilse Delgado, was selected this year for her idea that Denny's should create a special menu or menu item in which proceeds from the item(s) are donated each week to a local family in need.

"We look forward to bringing Ilse's idea to life in her local community," commented Frances Allen, Chief Brand Officer for Denny's. Denny's will work with Ms. Delgado to further develop and implement this idea into a local program in her hometown of El Paso, TX.
