## We Make it Easy!

Competitive Rates

No Hassle Credit Checks

Flexible Payments

### Should You Lease Your New ROI Vehicle?

Leasing is a great choice for shoppers who like to drive a new vehicle and want to keep their payments low. Once your lease term is up, you can trade up for a newer model, buy it outright, or simply return it and walk away when the lease is over.

### Benefits of Financing

Customers who intend to hold onto their vehicle for a while should consider a loan. Our flexible financing plans can get you into a new or used vehicle with terms that will reduce your overall costs while you build equity in your vehicle.

### Good Credit, Bad Credit, No Credit

Regardless of your credit history, ROI Motors can help you get into the new or used vehicle you deserve. With monthly specials, factory incentives, and competitive rates, we go the extra mile to help secure financing for all of our customers.

## Frequently Asked Questions

**Q. What's better, buying or leasing?**

**A.** This important choice comes down to your monthly budget and how you expect to use your vehicle. Leasing typically comes with a lower monthly payment than a traditional loan, but there are restrictions on mileage and customization. On the other hand, a loan may be associated with a higher payment but you will be building equity and will spend less over the life of the vehicle.

**Q. How long is a typical car loan?**

**A.** At ROI Motors, we will work with you to craft the deal that works for your budget. Most loan terms will fall between 48-72 months, with longer financing terms resulting in lower payments.

**Q. I've had credit issues in the past. Can I get financing from ROI Motors?**

**A.** Yes! We've helped countless customers with less than perfect credit get financing for their new vehicle. Just keep in mind that your credit score is directly related to the interest rates that will be available to you.

**Q. Can I finance a vehicle with no money down?**

**A.** In most cases, we can offer financing with no down payment. We can also roll taxes, registration, and fees into the financing deal if that works best for you.
