

Water Quality Solutions Comparison

Introducing our comprehensive range of water quality systems! Compare and contrast our top-of-the-line systems to find the perfect solution for improving the quality and safety of your water. Explore the options and take the first step towards enjoying cleaner, healthier water today!

Our Products

Flowtech

Alters the water's ionic makeup through soundwaves to prevent scale buildup.

Halo Ion

Uses magnetic fields to ionize water and prevent hard water scale.

Halo 5

Uses softening and conditioning to eliminate hard water and harmful chemicals

Scale RX

Prevents scale buildup without chemically altering or removing mineral content from water.

Nugen 42,000

42,000 grain water softener designed to deliver clean and soft water.

Nugen 70,000

70,000 grain water softener designed to deliver clean and soft water.

Nugen 90,000

90,000 grain water softener designed to deliver clean and soft water.

Novo

Combines upflow regeneration with precision brining to soften water and enhance efficiency.
