

Maintenance Technician

Are you tired of working dead end job after dead end job? Have past employers left you dreading work before your commute even begins? Do you want to play a key part in making life-saving technology for world renowned companies? If you've answered 'yes' to all three: Welcome to . We're a rapidly growing medical equipment manufacturer and we're hoping you'll join us in our success. How do we know you're the one? You're a hard working self-starter who is ready to join a team that you know has your back.

Our starting pay for this position is \$___/hour. But here at your hourly pay is just the beginning. Twice yearly raises, holiday bonuses, and up to \$5k tuition reimbursement per year are just a few of the ways we show our appreciation for your hard work. Plus, we have an onsite clinic for you and your loved ones, an onsite gym, and from time to time we throw a pretty mean party.

What will your day look like?

- Upholding all safety procedures
- Setting up shop tools and equipment
- Keeping the building and grounds in tip top shape
- Performing preventative maintenance on all equipment
- Keeping a keen eye on our machines in operation to be able to diagnose any malfunctions that may occur
- Making approved modifications to machinery and equipment as needed
- Repairing and replacing any parts that might become defective
- Starting up different equipment to make sure it's performing well
- Maintaining, installing, and repairing electrical equipment
- Keeping accurate records of all tools and maintenance performed on equipment
- Supporting, complying with, and keeping up to standard all (ISO 9001, ISO 13485, and ISO 14000) policies, procedures, and SOP's work instructions as directed
- Keeping your work area organized and free of debris to ensure a safe working environment for the whole team
- Performing any other duties that may pop up through the work day

What we ask of you

**required*

- High school diploma or equivalent*
- Associates degree in a related field or equivalent training
- Two to four years of experience in Electrical, Mechanical, Hydraulics, and Pneumatics as well as Welding Fabrication, Plumbing, HVAC, Blueprint reading, Basic PLC knowledge, Compressors and Vacuum systems

Why

? Because we want you to have it all

- A reliable paycheck; we won't leave you guessing whether or not you've worked enough hours to make rent.
- A stable career with growth from within the company you already love working with
- Regular bonuses; we know that as you grow with us, your time will only become more valuable and we want to honor that
- Job security in an unstable market
- An onsite clinic for you and your loved ones
- A responsive employer; we work with you so you'll love working with us
- A vibrant yet professional work environment; we facilitate tailgate parties, potlucks, pizza parties and more all so we can truly hit home how much your hard work means to us
- Your creative solutions will not only be recognized, but implemented as well
- Up to \$5k reimbursement of your tuition every year; we want to support you in achieving all of your academic goals
- Plus so many more stellar benefits; 401(k) retirement savings, life and disability insurance, paid holiday and vacation days, just to name a few.
