

WEDDING RING BUYING GUIDE

Your wedding rings symbolize your union, commitment, and love for one another. At Ritani you'll find only the most beautifully crafted wedding rings. Choose a ring that you'll cherish wearing every day through all the years ahead and the many memories you'll create together.

1. SET YOUR BUDGET AND TIMING

How much you spend on your wedding rings is an individual decision. Ritani offers a wide selection of handcrafted wedding rings that will satisfy any spending plan. Regardless of your budget, aim to purchase your wedding rings at least two months in advance of your ceremony. This will allow a comfortable amount of time for the delivery of your rings and any size adjustments that may be necessary.

2. SELECT YOUR METAL

When choosing the metal for your wedding rings, consider color, durability, and weight as well as your lifestyle, personal preferences, and needs. If you're looking for a white metal, consider platinum, palladium, cobalt, 18kt white gold, and 14kt white gold. For a warm glow, the traditional 18kt yellow gold may be your best choice. Cobalt wedding bands are a durable, lightweight, and affordable option for men. Matching wedding bands add another element of romance to your wedding. If you're considering this option, note the metal of her engagement ring and any other jewelry you both regularly wear such as watches.

3. CHOOSE YOUR STYLE

Ritani offers a wide variety of wedding ring styles both with and without diamonds, including classic, modern, and vintage. Women's diamond wedding bands offer extraordinary sparkle and shine in every shape and style. Men's plain wedding bands and women's plain wedding bands have classic appeal for those who want or need a simpler ring. Ritani also offers a selection of his and hers matching wedding bands. For an ideal combination of practicality and beauty, browse Ritani's selection of uniquely designed and handcrafted wedding rings and bands.

4. DECIDE ON EDGES, FIT, AND FINISH

At Ritani, you'll find a variety of wedding ring edges and fits for both men and women. The classic band has a rounded outside edge while knife-edge bands have a sharp edge for additional angles of shine. Our comfort fit rings for men have a slightly rounded inner edge for extra ease of wear. Ritani offers a variety of finish options for men's wedding rings -- from the rustic hammered look of the forged finish to the smooth shine of a polished or satin finish.

5. FIND YOUR SIZE

If you're shopping for wedding rings, chances are you've already cleared the engagement ring sizing hurdle. It's just as important to get the correct size for your wedding rings. Ritani provides a ring sizing tool with tips to help you find the perfect ring size. Measuring the size of your ring finger at the end of the day will give you a fairly accurate reading, but it's a good idea to measure several times throughout day. Whatever your size, style, preference, and budget, Ritani has your perfect wedding ring.
