The Social Savvy Expedition: Fantastic Photos and Selfie Spots

Voiceover:

Today's travelers are more connected than ever before. They live in a social-media-driven world, and they want their travel experiences to live there too.

That's why we created **The Social Savvy Expedition**, an excursion that connects guests with professional photographers so that they can learn the ins and outs of snapping the very best travel selfies.

We offer the four-to-five-hour sightseeing adventure in 29 of the world's most spectacular locations. Expert guides lead tours to ancient ruins and endless ocean vistas. Along the way, guests discover everything from perfecting a pose to composing and lighting the selfie to set Instagram on fire.

It's a new-age spin on culture and history designed for the 21st-century traveler. With selfie sticks and life-sized frames, it's hard not to have fun. Tack on the unique flavors of local cuisine paired with a bottle of wine in paradise, and capturing the moment may never be the same again.

Travel has changed, and it's about time the travel industry changed too.

Modern travelers want modern travel.

So, we gave it to them.

Give your guests what they want.
