

Legislative Activists for You!

We at J & L Medical Services are very serious about our mission! Part of that includes being a legislative advocate for our patients.

Our industry is changing, and it is imperative to stay current on legislation that may affect our patients. We have and will continue to invest time and resources to support legislation that will preserve patient safety. In addition, we will continue to keep the healthcare community apprised of the most current issues and encourage them to join us in assuring the best quality of care.

Brian Mitchell joined J & L Medical Services in 2005 and joined John and Lynn in partnership in 2007. Brian has assumed a role of legislative advocate working on behalf of our customers. He has challenged recent legislation and educates the health care community on current issues.

J & L Medical Services
co-founders, John Loyer
and Lynn Tata.

John Loyer and **Lynn Tata**, both Licensed Respiratory Therapists, founded J & L Medical Services in 2003

with a clear mission of providing an atmosphere of caring, competent and professional services to customers and their families. J & L Medical Services has been honored to have been the recipient of several prestigious awards including "Entrepreneur of the Year" and "Best Respiratory Provider." They are grateful to their wonderful staff, customers and referral sources, and thank them for their continued trust and support.

We know that illness and health conditions may have affected your life and daily routine, but it doesn't have to stop you from living life to its fullest. With the assistance of convenient, quality, portable medical equipment from J & L Medical Services, you can meet your friends for coffee, enjoy a lovely dinner out, spend time with your grandchildren, even travel the world!

J & L Medical Services and its highly knowledgeable, professional staff are dedicated to improving your quality of life. We'll work with your physician to outfit you with medical equipment that best fits your needs and lifestyle. We provide fast, state-of-the-art home equipment delivery and training, personal attention, educational services, and will even work with your medical insurance company to get you the equipment you need.

J & L Medical Services can open the door to the full, enjoyable life you deserve!

Don't just survive...Thrive!

COPD takes your breath away but with lightweight oxygen cylinders from J&L Medical Services, you'll have your breath — and life — back again!

"I've never been one to sit still, so when my doctor told me I'd need to be on oxygen, I wasn't going to let that stop me. J & L Medical Services met with me to determine which portable oxygen would best suit my lifestyle... and even worked with my insurance company to make sure I was covered. Today, I'm still driving and enjoying every single day. Thank you, J& L

Medical Services, for giving me the freedom to live my life!"

— MaryAnn S, Waterbury, CT

"I was diagnosed with COPD on July 4, 2003 and felt my freedom was taken away from me. I felt helpless, afraid, and alone. My doctor prescribed oxygen for me. With the help of the team at J & L Medical Services, I learned that I did not have to just survive, but thrive. My lightweight oxygen system enables me to get out of my house and go. I can still travel and its nice to get extra support from J & L's Better Breathing Program." — Mary T, New Haven, CT

Get the restful sleep you deserve!

Sleep is a vital part of life, but Sleep Apnea takes away the restful breathing you need. J & L Medical Services offers CPAP therapy through its REM Program.

"My wife complained for years that I snored, gasped and stopped breathing when I slept. It wasn't until I almost fell asleep while driving that I was diagnosed with sleep apnea. My doctor called J & L Medical Services to start me on CPAP therapy. I was extremely anxious to get treated but was assigned my own therapist from J & L. Through lots of education, I learned about the risks of sleep apnea and realized my irritability and high blood pressure could be a result of not treating my sleep apnea. Although I have now been compliant for 2 years on therapy, I still hear from my therapist who makes sure I am keeping my equipment clean and have no clinical issues. Since using CPAP, I'm in a much better mood. The motto at J & L is 'We won't rest until you do' and I'm happy to say we are both resting now!" — John T., Hartford, CT

Portable Medical Equipment Keeps You On the Move!

"My wife is a nurse, but I never expected that I would be afflicted with the same illness that her patients face every day. What a shock! But, thanks to J & L Medical Services, I'm still able to live a full and productive life. I continue to work, enjoy going to my grandson's baseball games, and still love traveling with my wife. Illness doesn't have to stop you, and J & L Medical Services is there to help you stay active." — Sam J., Danbury, CT
