

Stars in the making

Meet the 10 finalists in the *Practical Parenting & Pregnancy* and Dentinox beautiful baby 2012 competition

When we asked you to enter your babies into our 2012 model competition and tell us why your little one's so special, our inbox filled up fast with some super cute piccies. The prize is to appear on the front cover of *Practical Parenting & Pregnancy* (you can see last year's winner Maya Kihogo, left), be whisked away for a photo shoot with Dentinox, star on the Dentinox website and e-mag, as well as be the face of Dentinox marketing materials.

Next up was the impossible task of whittling down the entries to just 10 finalists to join us on a photo shoot. Here are their pictures, but can you see a winner among these gorgeous faces? Check out the October issue of PPP, out 5 September 2012, to see who won.

AOIFE RAINE RUBY FULLER

11 months, from Basingstoke

Aoife's mum, Michaela, 20, says:

"When I'm out with Aoife, people always stop me to say how beautiful she is and that I should get her into modelling. When I found out she was in the final 10, I was bouncing off the walls with excitement."

ELIJAH ALLEN

10 months, from Leamington Spa

Elijah's mum, Anissa, 32, says:

"Everyone keeps telling me how photogenic Elijah is and that he has the most wonderful smile. I decided to enter him into this competition, but never in my wildest dreams did I think I would get the call to say he was a finalist. I'm so excited about showing my little star off."

KAI BYRNE

11 months, from Bognor Regis

Kai's mum, Katie, 18, says:

"Kai is quite the character, pouting and posing every time I get the camera out. He lures you in with his big eyes and they really make your heart melt. Kai being a finalist is like a dream come true and a great keepsake for him in the future."

RONAN FALLON

9 months, from Glasgow

Ronan's mum, Karen, 32, says:

"When out and about, people always stop me to say how beautiful Ronan is and what lovely, long lashes he has. I've never entered a competition before so when I got the call saying he had made the top 10, I actually screamed. If he won I would just burst with pride."

ETHAN ROSS

11 months, from Glasgow

Ethan's mum, Adelle, 21, says:

"Ethan has people eating out of the palm of his hand with his amazing smile and happy, bouncy nature. Every mother thinks her baby's beautiful, so to win would be fantastic and, of course, confirm what I already know!"

LUCAS DRIVER

9 months, from Wakefield

Lucas' mum Anne-Marie, 41, says:

"Lucas is a cheeky little monkey who loves attention. After having some nice photos done, people were always mentioning how well he took to the camera and how cute he was. If he won, I'd be shouting it from the rooftops for the world to hear!"

AARON & JACK BOND

15 months, from Limerick, Ireland

Aaron & Jack's mum, Stacey, 30, says:

"The twins are adorable and really hilarious to watch. Jack [right] is cheeky and mischievous, while Aaron is inquisitive and laid back. They're so special and it's amazing to see other people think the same."

EDWARD BREMNER

11 months, from Dudley

Edward's mum Helen, 36, says:

"After getting the call that my little man was in the final 10 I was embarrassingly excited, calling all my family to share the good news. Edward is such a happy baby and has the most stunning eyes. Win or lose, I'm one proud mummy."

MILLIE KAREN THOMPSON

8 months, from Nottingham

Millie's mum, Claire, 23, says:

"Millie's a gorgeous girl and adores the camera. She goes into model mode when she sees the flash. I'm so excited she's in the final 10, as I hardly ever enter competitions. If she won I would be lost for words."

ZOE RANDALL

8 months, from Poole, Dorset

Zoe's mum, Christine, 41, says:

"Zoe always makes me smile and has a way of looking at you that just fills you with joy. I was completely surprised to get the call saying she'd been shortlisted but chuffed at the same time, as it means everyone else can see how amazing she is."

DENTINOX – BABIES ARE OUR SPECIALITY

Dentinox has been working with parents for over 40 years to develop a trusted range of baby medicines and remedies. The Dentinox range includes:

- **Dentinox Infant Colic Drops:** Containing Dill, Dentinox Infant Colic Drops come with a handy syringe for easy application and can be added to your baby's bottle to ease their discomfort, providing effective relief for those trying, colic episodes. (Contains activated dimeticone). Always read the label.
- **Dentinox Teething Gel:** This award winning product gets to work swiftly and can be used

every 20 minutes to provide effective pain relief. Suitable from birth, it's sugar free and contains an antiseptic. (Contains Lidocaine Hydrochloride and Cetylpridinium Chloride). Always read the label.

- **Dentinox Cradle Cap Treatment Shampoo:** A gold winner for mum's and dad's, this non messy shampoo is a highly effective, gentle remedy – even kind enough to use regularly once the cradle cap has cleared up. (Contains Sodium Lauryl Ether Sulpho-Succinate and Sodium Lauryl Ether Sulphate). Always read the label.

- **Dentinox Teething Toothpaste:** Sugar free, Dentinox Teething Toothpaste helps ease teething pain woes and contains clove oil known

for its soothing properties. It also comes with a special fingertip toothbrush which slips easily on to the index finger so that mum and dad can gently massage gums and new teeth. Dentinox Teething Toothpaste is not a medicine.

- **Snufflebabe Vapour Rub:** Providing relief from congestion, tried and tested Snufflebabe has won loyal fans, thanks to its simple, yet highly effective combination of menthol, eucalyptus oil and thyme oil. (Inhalation vapour rub; contains Eucalyptus Oil, Menthol and Thyme Oil.) Always read the label.
