Gore Otteson is a curious toddler with a habit of getting into anything he's not supposed to. This leads to the beginning of a bad nightmare when he sneaks away on his family's Colorado property. After an agonizing search, his body is discovered in an irrigation ditch – presumably drowned.

In the ensuing chaos, his parents are pitted in a test of endurance. Gore is given a less than one-percent chance of ever resuming normal brain function. Though struggling with their son's likely fate, Amy and Dave Otteson cling to their faith and the reminder of God's power and the perfection of His plan.
