

BREAKING: FULL PRESENTATION “FOR YOUR EYES ONLY”...

**ONLY 33 PEOPLE KNOW EXACTLY WHY THESE
5 TINY COMPANIES WILL CHANGE THE WORLD**

**YOU'RE #34 AND NOW YOU HAVE A CHANCE TO BECOME
ULTRA-WEALTHY**

THIS WILL GO DOWN IN HISTORY AS THE “STORY OF OUR ERA.”
BY THEN, YOU AND YOUR FAMILY COULD BE AMONG THE ULTRA-WEALTHY...
BECAUSE YOU TOOK DECISIVE ACTION BEFORE NOVEMBER 2014.

**YOUR CHANCE COULD END AT ANY MOMENT
DUE TO A SHOCKING ANNOUNCEMENT I'LL REVEAL TODAY...**

Dear Reader,

In my 40 years of research and study, I've learned of 33 people who know what I'm about to show you.

These 33 individuals are Nobel Prize winners, venture capitalists, famous researchers and CEOs.

They each control a different piece of the amazing story I'll share with you today...

Once I've shown you everything, you could be number 34... one of the few people in the world to know this incredible secret...

Now, some media outlets like CNN.com, *Health Magazine* and *MIT Technology Review* know small parts of the story...

And of course research outfits like Stanford University's Institute for Stem Cell Biology and Regenerative Medicine, Harvard Stem Cell Institute and MIT's Whitehead Institute for Biomedical Research, know other parts of the story you're about to see...

But only a handful of people in the world know *it all*...

Which is why you're so lucky.

What you learn could make you ultra-wealthy — and also change the world.

See, I've interviewed a few of the 33 folks who get it.

And I'm convinced that, years from now, mankind could remember them as being responsible for *the most important development in human history*.

By then, their ideas could have made you and your family financially independent for generations.

That's one reason why I'm so excited to write to you today...

Because you're minutes away from what could be your best shot ever at a different life... the ultra-wealthy life.

Your Chance at Ultra-Wealth From a World-Changing Idea Whose Time Has Come...

I believe there's no force stronger than an idea that *won't wait for people to notice before it changes the world.*

That's the reason I'm writing to you today.

It's ***an opportunity so explosive, it could leave you*** "ultra-wealth"...

Here's what I mean by that:

"Ultra-wealth" is having endless financial resources.

Money you can use however you want.

Money that thrives no matter what happens in the markets.

Money that works for YOU instead of the other way around.

Easy, effortless money.

Money that finances your dreams, your children's dreams *and your grandchildren's dreams...*

That's ultra-wealth.

Today, I'll introduce you to a handful of people who could make it happen — for you.

You're Seconds Away From Your Shot at Life-Changing *Ultra-Wealth*

Changing lives. *Raking in huge fortunes.*

It's a lot to handle. I know. So first, let me put all this in context.

Since you may be the 34th person in the world to know... it's important you understand that *timing is critical here... parts of what I'll show you are extremely time-sensitive.*

It's so critical, in fact, that your immediate reply is absolutely essential.

I'll give you the details why in just a second.

Just a hint: One of the 33 just broke some incredible news... news that could easily put your ultra-wealth in motion.

The news comes from the FDA. A historic announcement we'll remember years from now.

But before we cover that news, I should tell you a little about myself...

I've Built My Career on Being "In Front of the Story" for Over 40 Years

My name is Stephen Petranek, and I work with well-known financial publisher Agora Financial as the editor in chief of a cutting-edge technology research service called ***Breakthrough Technology Alert***.

For more than 40 years, I've been a journalist who covers finance, technology, science, nature and much more. You may have read some of my work before and not even known it.

For example...

For 12 years I was the editor of *The Washington Post's* Sunday magazine.

Then, for six years, I was a senior editor at *LIFE* magazine.

I was instrumental in assigning, editing and writing a lot of cutting-edge articles, from helping *LIFE* score the first post-presidency interview with Jimmy Carter to a 1993 article on how we will one day live on Mars.

I assigned story after story on the emerging breakthroughs that have changed our lives — long before others saw what the technologies could do and before they identified the tech geniuses that would lead us there.

After *LIFE* I became editor in chief of the world's largest science magazine — *Discover*. There I identified Elon Musk as the greatest technological innovator of the next 20 years, and I put a profile of him and his company SpaceX on *Discover's* cover long before anyone had heard of him. And from my perch at *Discover*, I gave one of the most popular TED Talks ever.

But my heart has also long been in the world of finance. Several years before my career took off at *The Washington Post*, I was recognized for my financial writing and insight by winning the John Hancock Award for Excellence in Business and Financial Journalism, considered by many to be the Pulitzer of financial writing.

I don't like bragging, but I've made a career of being "in front of the story" for decades. It's what truly effective journalism is all about. I've seen a lot of money change hands. I've met many of the world's most interesting people.

The results? Well... you be the judge.

I've made a fine living by being among the first to spot the trends that create extreme wealth.

What I'm telling you today could be more lucrative than anything I've ever written about...

Imagine How Different Your Life Could Be...

If you could step back in time...

And take a seat alongside Thomas Edison in 1879 at his Menlo Park lab.

You wouldn't have had to *invent* the light bulb to become wealthy.

But just imagine how different your life, and fortunes, would be if you had the chance to *soak up the ideas of those great men and then to take decisive action and invest in world-changing technologies while they transform our culture, forever.*

That's exactly the power you have today — the power to make a FORTUNE by being one of the first to recognize a life-changing situation and act on it.

But know this — whether you jump on right now or delay and miss out completely, this world-changing idea will sweep the globe.

It won't wait for you or anyone else.

It's an easy choice when you consider the potential. Potential like...

Being one of the original 20 investors who kept Amazon afloat in the beginning. They contributed about a million dollars, collectively, accounting for around 20% ownership in the company at the time...

That \$1 million investment as of 2013 was worth more than \$24 billion.

That's an increase of 2,399,900%!

A return like that would transform \$5,000 into \$120 million!

Doesn't that sound like ultra-wealth to you?

Well, it's nothing compared to what I'll share with you today. The 33 brilliant minds you're about to meet are on to something BIGGER than electricity.

More lucrative than the Internet revolution.

And more shocking than going to the moon.

That's because this idea has the power to directly benefit every single man, woman and child in the world.

Not just the lucky, the rich, or the citizens of certain countries.

Here's What 33 Insiders Already Know and Why It Could Make You Ultra-Wealthy

The revolutionary change you're about to see is already well under way.

What could be so powerful?

Well, to put it simply, scientists are close to figuring out how to make the body *regenerate, renew and heal itself... perfectly.*

I'm talking about making the body heal itself quickly, painlessly, and naturally — harnessing the potential stored deep inside each of our own cells...

It's the power to cure disease. The power to PREVENT disease. And the power to eliminate, and possibly even reverse, aging...

If this all sounds like science fiction, stick with me for a few more minutes and you'll see just how true it is.

In fact, much of what I'll show you today is already in testing. Some of is already being used to save and change lives.

Experts have hailed this as a “milestone in medicine.”

According to *MIT Technology Review*;

**“Many view the creation of [these world changing technologies]...
medicine’s magic bullet.”**
– *MIT Technology Review*

And if that isn’t incredible enough, just take a look at what *Health Magazine* reported about one use for this world-changing technology...

“...People with Type 1 diabetes have been able to survive without insulin shots for more than two and a half years, on average, after having their own... cells removed and reimplanted...”

That’s simply amazing.

And the five companies I'll share with you today control some of the most important breakthroughs that have already taken place.

Some of this work is about to hit the market.

Someday very soon, if a person has a heart attack, that person might be able to receive a simple, painless shot that rebuilds his heart so it's good as new.

Clean, young, healthy and strong as the day he was born.

Now here's the shocking part:

Scientists might be able to do all of this just by taking a small sample of blood, or lifting a few pieces of hair from a person's head.

But that's still not the best part...

One day, the process could be as easy as using one of those blood pressure machines you see in the drug store.

Imagine this:

A person is diagnosed with a disease or disorder that requires a new organ.

They get a prescription from their doctor and go to a nearby drug store or doctor's office for treatment.

A machine will take a small blood or hair sample and a few seconds later, out comes a syringe. Inside the syringe are the cellular tools to repair and rebuild any number of organs...

Liver. Kidneys. Lungs. Heart... you name it.

The science can rebuild skin. Cartilage. Tendons.

I'm talking about advances that can make parts of your body seem immortal, radically increased lifespans — making 75 the new 40.

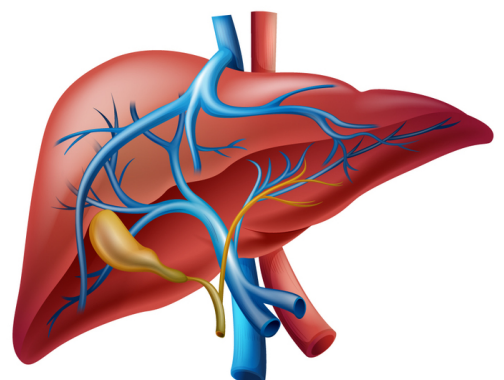

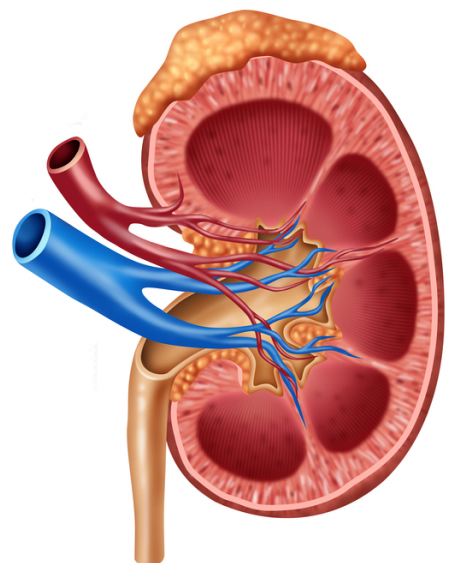

Imagine the market... imagine the profits.

Imagine how this technology will change medicine. Forever.

It's a new frontier of cures — completely personalized to each patient.

Keep in mind too — what I'll show you today isn't just to help repair and rebuild organs damaged by disease — it's to make the old person's body truly young again.

It isn't crazy. It isn't far-fetched. It's the market story of the century...

Already a man commonly referred to as “The Berlin Patient” was completely cured of HIV.

That was done using these life-changing cells.

And now according to the *San Francisco Gate*, scientists believe that, “[These amazing] cells, drawn from a patient's own bone marrow and altered to be HIV-resistant, may be able to [cure HIV].”

If I hadn't been following the development of this technology for the past 40 years, I might not believe it myself...

But as you can see, it's already under way.

The implications of this science are as far-reaching as anything mankind has ever discovered.

That's because every living human could potentially take advantage of it.

There is no one alive that this technology can't help.

That's why it's bigger than the light bulb.

It's going to be more lucrative than the Internet.

And five tiny companies are behind it all... companies I want to share with you TODAY.

Now, you're going to have to move fast, because what's happening right now in "life-extension sciences" is bigger and more revolutionary than any short-term market story.

Like I said before, one of the 33 people recently made an announcement that I believe could put you well on your way to ultra-wealth.

That's because this man's company has just received approval for a new technology that could be a game changer.

By my estimate, we could start to see a reaction to this news in the next week. So you have to reply **right away** if you want to hear the details on this revolutionary technology.

The breakthroughs and innovations being pioneered by these five small companies tell a truly incredible story...

More life- and world-changing than any story in history...

Not only can this technology cure disease — it has the potential to WIPE OUT many of the problems associated with aging... like high cholesterol, memory loss, bone loss, heart failure... the list is endless.

And the profit windup is just getting started.

In fact, here's why it's so important that you're on the inside of this ticket to ultra-wealth...

The Most Important — *And Profitable* — Scientific Breakthrough In History?

You know that our bodies are incredibly complex.

In fact, it's widely believed that the human brain is the most complex construct in the known universe.

And all throughout our history, we've fought to understand more about ourselves and what makes our bodies work.

For millennia, progress was slow... we made breakthroughs in fits and starts.

Vaccine technology, like for polio in 1952, was a huge step forward, but still just the tip of the iceberg.

Decades later, imaging technology began to allow doctors and scientists to peer deeper and deeper into our bodies.

Today, with ultra-advanced microscopes and what's called "molecularly precise" manufacturing, scientists are close to figuring out how to use our own cells to cure us of disease.

So rather than relying on drugs and surgery — the future of medicine will be in figuring out how to make your body heal and rejuvenate itself without invasive procedures.

Now here's my confession...

Costs at market for what I'll show you will be incredible at first.

This is true of all new technology.

At first, only the mega-rich will be able to afford them.

But eventually, once the technology becomes widespread, the costs will start to fall.

And when virtually anyone has access to the cures and treatments they need to live longer, healthier lives, that's when the world will really change.

Think About the Investment Potential

That's how you could become rich. Because you're in on it early. Before the crowd.

You have a chance to make the bulk of your profits while margins are incredibly high...

And progress will only continue to build... FASTER and FASTER.

It's called Moore's Law. Progress accelerates. Miracles develop seemingly overnight.

In fact, I'm convinced this is the most exciting time EVER to be alive.

And to get very, very rich.

How?

By taking a small stake in any of five companies that are spearheading the development of this life-changing technology.

That's the full potential you have today by being one of the small number of people listening to this message...

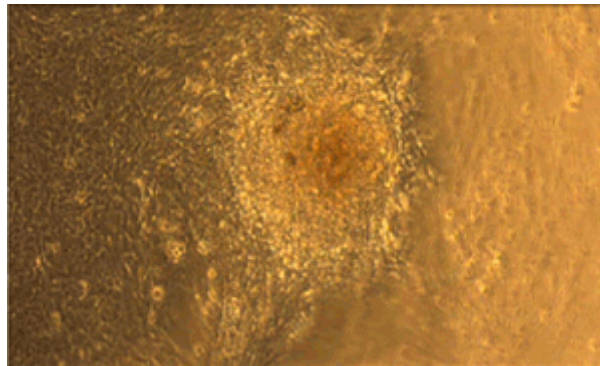

But, again — if you're interested in ultra-wealth — I must hear from you right now. The news these tiny companies are generating as I write is like a ticking clock on your chance at financial independence.

Before I go on, however, let's step back for a second and look at just one part of the body — and the enormous potential these cures have to change our world...

One Body Part That Dominates Medicine

In 2012, the World Health Organization estimated that about 30% of all worldwide deaths are caused by some form of heart disease.

In the U.S. alone, about 600,000 people die from heart disease each year.

But that number may plummet sooner than you think...

The technology I'm describing could give 70-year-olds strong, healthy, robust, young hearts.

To prove it...

A while back, one of our former researchers used a little-known technology from one company to grow his own heart cells...

First, he had skin removed from under his arm.

Then the scientists reversed those cells back to their blank, baby-like state.

Then they reprogrammed those now blank cells to become beating heart cells.

The biological age of these heart cells, which you can see beating in a petri dish in this amazing 20-second video, is exactly the same as our researcher's... when he was born.

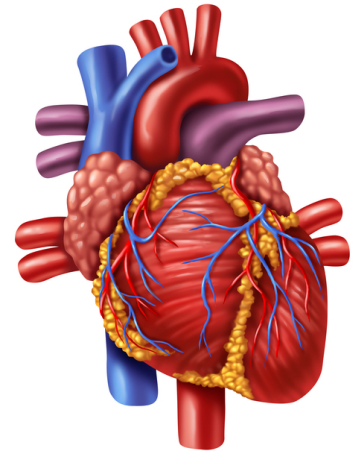

Amazing, isn't it?

A new heart could be as simple as removing some skin from your arm.

And one day soon could be injected into you to make a whole new heart.

Just take a look at a piece of this article published by UCSF earlier this year:

"The power of regenerative medicine [is] allowing scientists to transform skin cells into cells that... are virtually indistinguishable from heart muscle cells... And by doing so, the research team was able to generate a completely reprogrammed beating heart cell."

Imagine being 70 and having the heart of a 29-year-old.

A heart with new regenerated cells to replace those that have grown old and weak.

That's the promise behind the science I'm revealing today...

Imagine the full potential...

Children born with heart defects? Curable.

Young folks cut down in the prime of their life due to a heart-valve malfunction. Not anymore.

Older folks slowly declining into the abyss after heart attacks and stroke... not anymore.

It's closer than you think... in fact, it's coming together so fast it could change the face of investing forever.

The Birth of Computer Technology Can't Hold a Candle to This Amazing Promise...

You remember the early days of the computer.

In the 60's and 70's, you'd see huge computers the size of an entire room, sometimes stretching across multiple floors.

And now, the tiny computer you're using to read this letter is far more powerful than that massive hunk of metal and wires...

The technology I'm describing today will grow even faster than computers did.

The potential is *unlimited*.

Imagine CURING Alzheimer's. Or rebuilding the pancreas of a diabetic.

There's amazing work going on. Life-saving potential like humankind has never seen before...

YES — we're close to eliminating almost every disease — without drugs as we know them today, without side effects...

PLUS — reversing aging, restoring youth... lengthening life spans...

And you're in on the ground floor. Because you're here with me today...

I've spent more than half my life tracking the innovations and breakthroughs of the technology sector...

I've talked to CEOs and the head researchers. I've cross-checked their statements with my network of industry insiders...

I've traveled thousands of miles over the past several years to track down the the truth about these ideas, their viability and their potential...

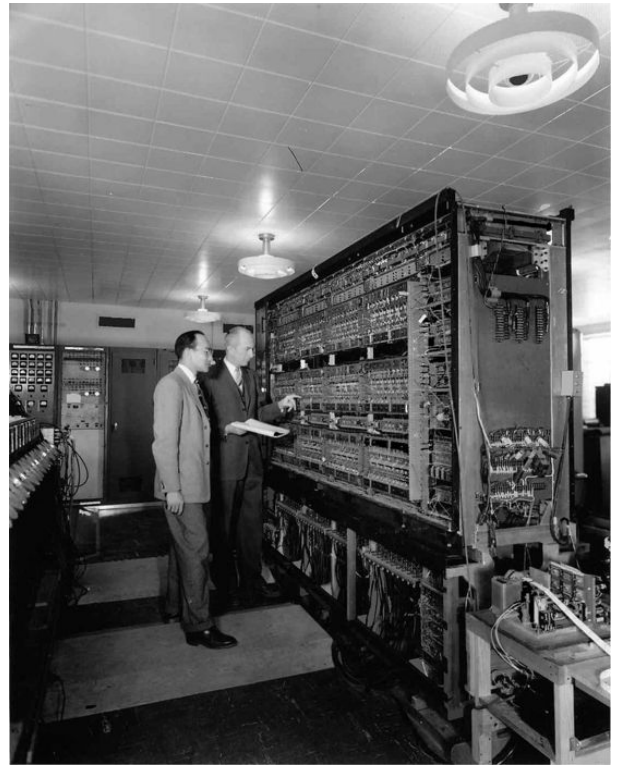

I've talked to more scientists "in the know" than most researchers ever meet in their life...

And I have to admit — what I'm going to show you today... reaches to the very top.

Roche, Novartis, Merck, Pfizer, AstraZeneca, GlaxoSmithKline — they're all involved.

Even the White House is behind this world-changing idea.

President Obama has openly demonstrated his support for scientific innovations like this — going on the record saying,

“America will only be as strong as our pursuit of scientific research and our leadership in technology and innovation.”
– President Barack Obama

You won't find a more notable endorsement for unbelievable technologies than that...

I've looked inside some of the minds of the 33 with the full story — and I'm breaking it all open for you today.

Plus, I want you to have the full story on how your profits could begin — which I'll gladly GIVE YOU — so long as you respond to this note RIGHT NOW.

Don't Let Time Run Out on Your Huge Gains

We could very well be 24 months (or less) away from offshore availability of some of these cures...

This could happen whether or not the FDA gets on board and pushes these cures through testing and approval.

The force that's gathering right now...

It's bigger than any government. It's stronger than any objection. It's more powerful and lucrative than any fear...

The question is, will you be a part of it? Will you be in position to grab the ultra-wealth this science promises?

I've already shown that it can't be stopped. This progress is so needed, so universal, that it's only a matter of time before it sweeps over the entire world.

So that's why it's so urgent that you get in while it's still unknown and behind the curtain.

Acting today is the difference between buying Microsoft for 9 cents back in 1986 and turning \$5,000 into nearly \$2.5 million...

Or buying today when it's already a mature company.

That's how important this letter is to your financial future...

Act today, and you won't miss your chance for profits.

You won't miss your shot at ultra-wealth.

For a chance to make the biggest profits, you must reply TODAY — RIGHT NOW. **Now here's why I'm so confident...**

The Key to Your Profits

The key to profits will be... patents.

Patents make it possible to pursue an idea — and if it pans out, the inventor gets paid.

Patents are protection. They're security.

The five companies I want to tell you all about today — they're patent RICH.

Development. Manufacturing platforms. Cure delivery. These companies control it all.

Yes, these could be some of the strongest patent-controlling companies ever. Which only makes the technology they control that much more important.

Someday soon, Pfizer or Roche or Merck will come calling to these tiny, unknown companies and want to use their technology...

What are these companies going to say?

PAY UP. Which could end up being even more lucrative for you as a front-line investor!

Just take a look at what *The Wall Street Journal* had to say on the subject...

"[Pfizer's new division, called] Pfizer Regenerative Medicine, will include a fair bit of dealmaking — always interesting when you're talking about a company sitting on billions of dollars in cash... Other Big Pharma shops are moving in a similar direction. GlaxoSmithKline, Johnson & Johnson, Roche and Novartis have launched partnerships or invested in companies developing [cures]."

Patents, patents, patents. Hundreds of patents between all the involved companies.

It's amazing just how big this story really is...

Now here's how you could play these patent-rich little companies to rack up huge gains... right alongside the brilliant 33 folks on the inside...

The Ultra-Wealth Preparation Pack: ***The Most Lucrative Reading You'll Ever Do...***

I've wrapped all my research, every bit of information I've gathered, in what I call **The Ultra-Wealth Preparation Pack**... it comes in two volumes...

VOLUME I is the premium report — 5 World-Changing Companies to Deliver You Ultra-Wealth, in which I go over patent details, full business reports, and painstaking facts and figures on the businesses of the five companies that stand ready to change the world.

You get **5 World-Changing Companies to Deliver You Ultra-Wealth** IMMEDIATELY, just as soon as you reply to this message.

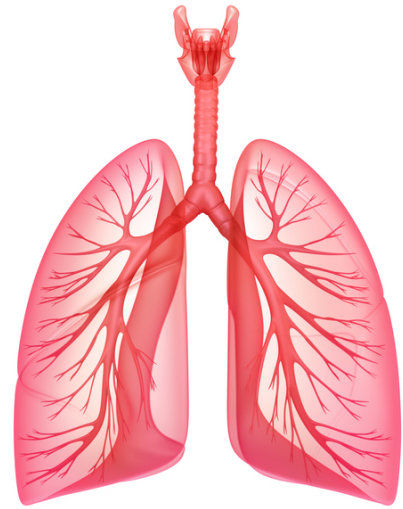

No waiting around. No delays. You get it all — all the power for generating ultra-wealth — the moment you reply to me today.

The quick-hit breakdown of just a few of the benefits you get with these tickers in your hand is staggering. You'll learn about the...

Nobel Prize-winning minds behind these companies...

- ✓ The huge recent grants for key research...
- ✓ The potential cures in testing ...
- ✓ The potential to repair and rebuild hearts, lungs, and tendons...

There's more... there's a ton more. I'm just getting started...

See — The Ultra-Wealth Preparation Pack is *more than just this report*...

I'll share the rest in a minute...

If you're interested in what I'm revealing, you must reply TODAY.

A recent announcement has really forced my hand, pressuring me to get this information to you quickly.

It's no overstatement to say your chance at ultra-wealth is slipping away.

Here's the scoop on that recent announcement — for your eyes only — since you're on the inside...

How You Could Start Raking in Life-Changing Gains TODAY...

The CEO of the company with the power to potentially rebuild hearts made an announcement earlier this year...

This CEO's company appears in **5 World-Changing Companies to Deliver You Ultra-Wealth...**

What was the announcement?

This tiny company now has approval from the FDA to market one of their breakthrough new technologies.

According to the FDA, the product can be used to treat anything from ulcers to skin grafts.

A select few people will become VERY rich off this technology.

And you'll be in position to be one of them.

You see, this CEO's company, (as well as the other four in **5 World-Changing Companies to Deliver You Ultra-Wealth**) are so small — these cures so new — that news like I just shared with you can start a flood of interest.

Most of that interest, sadly, is from poorly trained and undisciplined investors.

By preparing you properly with the news, implications and potential behind this amazing technology in **The Ultra-Wealth Preparation Pack**, I'm taking every step possible to help you make the REAL profits — the kind of profits that could deliver ultra-wealth.

These are the profits reserved for the smart, insightful investors — the profits that truly change lives.

It's only a matter of time until the media finally does catch on to these unprecedented disease-slaying and life-extending potential cures...

Point is — it's news that could put you on your path to ultra-wealth.

For the potential to see the biggest potential, I need to hear from you today... RIGHT NOW. **You simply cannot miss another day of profits...**

Yes, I want you to be ready to grab the biggest payout early on...

The Potential for Life-Changing Ultra-Wealth

As I write to you today — just \$300 buys 100 shares of this revolutionary company...

PLUS 100 shares of ANOTHER revolutionary company I'll tell you all about in just a moment...

That's your bottom line, right there.

Just \$300 today could start a stream of ultra-wealth for you and your family — wealth that lasts for decades, for generations...

To get your hands on **5 World-Changing Companies to Deliver You Ultra-Wealth** and be in position to see the biggest gains — I must hear from you today...

You can get the full story just minutes from now when you accept **your complete** Ultra-Wealth Preparation Pack and put yourself in position for what could be three lifetimes of gains.

These are companies with the knowledge to potentially cure disease and rebuild organs — companies that could easily help make 70 the new 40.

Companies that could make you wealthier — could make your children and grandchildren wealthier — than you ever dreamed possible...

So you must act quickly. There's no time to waste... Simply agree to receive **your** Ultra-Wealth Preparation Pack from me at the end of this letter, and you'll be ahead of 99.9% of the rest of the world *as the next great wealth creation gets underway....*

THIS IS THE TIME to take full advantage of your unique position in the know...

Your One Simple Step Toward Ultra-Wealth

Your opportunity to turn these tiny companies into incredible wealth is running out.

I fully expect that before this calendar year is out — mainstream awareness of this work could have reached a new level.

And then, as they say, the investment cat will have jumped right out of the bag...

If you get in with the crowd, you could see triple-digit gains in the short-term... maybe even quadruple-digit gains...

But those triple- and quadruple-digit gains are nothing compared to the life-changing gains you could make if you act today.

There's no time to spare. One simple call to a broker, or a few clicks of the mouse from the comfort of your home computer... and you could be set.

Set for ultra-wealth. Set to take advantage of what years from now, history will remember as the story of our era.

This is your one shot — your one opportunity — to take part in a new world. A better world. A world filled with tremendous profits. And youthful, long, healthy lives. Wealth and health for you and your family.

But before we get to the shocking offer I want to share with you today — there's one more thing I must cover...

Massive Potential

One company I'll tell you about in ***5 World-Changing Companies to Deliver You Ultra-Wealth*** is actually starting *really small*...

Right now, this company has a spray in a bottle that could reduce wrinkles.

Plus a potential way to help slow one of the leading causes of blindness.

This company has created a "toolbox" of cure technology with nearly limitless potential... it's shocking just how many diseases and ailments stand to fall by the wayside due to this technology...

Their "toolbox" of technology could be worth tens of billions, actually.

When you consider the current market cap of this company is less than \$24 million — we're talking about the potential for AT LEAST 25-fold gains as the company rockets into the forefront of history...

And that's my conservavtive estimate...

See, the CFO of this company is another one of the 33 people I've been telling you about...

Now, you haven't heard about this company. As of now, it's more or less completely unknown.

But you can read all about his company in ***5 World-Changing Companies to Deliver You Ultra-Wealth***...

So you can judge his work and reputation for YOURSELF. And make your own decision...

In the meantime — consider this — how big will the market be for this wrinkle-destroying breakthrough?

Rather than paying thousands of dollars for painful, error-prone and scarring cosmetic surgery... a person could spend far less and get the same effect *from a spray bottle*...

So why's the company doing spray on face-lifts, when it's working on the technology to cure disease?

It's simple. They're demonstrating the principles behind their work, proving the market and showcasing the power of their technology.

That's the key here...

These companies are just *demonstrating their potential*...

And very, very soon, the story could start picking up *serious steam* .

Yes, you're in a once-in-a-lifetime position right now, because so few understand it all.

But this secrecy won't last long. It could all break wide open at any moment...

What I'm describing here will change the world. And so it must change the markets.

The avalanche of money could change lives... especially yours, since you're one of the very few people to understand the weight of this breakthrough...

See, now you're on the inside — same as if you could step back in time and get the inside scoop on revolutionary computer technology — *before it became public knowledge*...

Here's just a little bit more for you... to witness how overwhelming this potential really is...

You Get LIMITLESS Profit Potential — Here's Why...

SAVING LIVES, EXTENDING LIVES... EXTENDING YOUTH... crafting a better life for each person on the planet — that's what's potentially at work here...

Imagine if everyone was healthy... if every person was fit and happy...

If life after 70 was *just the beginning*...

Starting to see how it all comes together?

What I'm describing here today will change the world.

Just like the light bulb did. Like computers and the Internet did. Like how the railroad and automobiles changed the landscape of humanity, forever...

Keep in mind — only a few who are in front of the game are going to get very rich.

Being in the know means you'll be ready to make the truly life-changing money.

The money that builds ultra-wealth. And it all starts today...

Your Complete Ultra-Wealth Preparation Pack in Your Hands in 60 Seconds

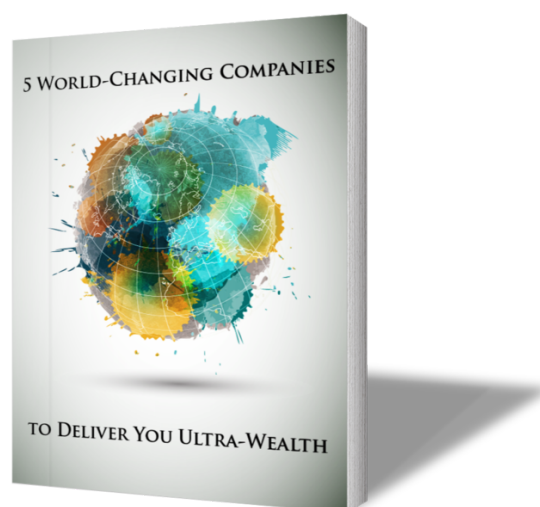

At the end of this letter, simply click on the link, and you'll be just seconds away from reading your complete copy of **The Ultra-Wealth Preparation Pack**. With the tickers of the five companies I've been telling you about in your hands, you'll be ready to grab your shares and start raking in the profits, starting right now...

Then, you could be well on your way to building a never-ending stream of ultra-wealth.

PLUS — you'll also start receiving monthly issues and weekly trading alerts from me — straight from my desk at **Breakthrough Technology Alert** headquarters.

Inside these issues and alerts, I tell you all the latest news about our model portfolio and give you the latest scoop on the stocks we're tracking.

But that's not all you get. Here's the full breakdown of what you receive with **The Ultra-Wealth Preparation Pack**...

- ✓ **5 World-Changing Companies to Deliver You Ultra-Wealth** — patent details, plus the full story on cures and technology currently in testing. You get all the most important info you need to begin raking in ultra-wealth...
- ✓ **Monthly Issues of Breakthrough Technology Alert** — Each month, you'll receive a profit-packed issue from me, guaranteed to have at least one new pick.
- ✓ **FREE — Weekly AND "FLASH" Email Alerts Directly From Me** — If news breaks about one of our recommendations, I tell you everything I know. In short, I'll always keep you "in front of the story" with every pick I make. You get one email update each week, guaranteed. PLUS *exclusive round-the-clock "FLASH" Alerts when you need to know something RIGHT AWAY.*
- ✓ **FIRST-READ Status for All Future Reports** — Any special report I ever issue at any time in the future, you get a first look, before anyone else in the

world has a chance to read it. *Now that's some "in front of the story" profit potential.*

- ✓ **FREE, FULL Breakthrough Technology Alert Website Access** — As soon as you sign up, you'll receive a unique and exclusive user name and password for the private **Breakthrough Technology Alert** website. You can look at all my past issues and alerts. You can track the model portfolio. You can read *all my special reports*.

After all this, you might be wondering what it costs to start receiving **Breakthrough Technology Alert** and get your hands on your **Ultra-Wealth Preparation Pack**.

Well, here's my best offer — good only for a very limited-time...

Begin Your Stream of Ultra Wealth...

The fact is, the profit-potential is so massive — these five companies and their cures could be so revolutionary — that I normally charge \$2,000 or more for you to get your hands on **The Ultra-Wealth Preparation Pack**...

In fact, if you visit my website right now, you can sign up to receive my research for that very reasonable \$2,000 price point, and many readers take that option and are thrilled..

One of my readers, Eduardo M., wrote in saying;

Eduardo M.

You've earned all the trust and credibility that anyone can ask from any service."

[Like](#) • [Comment](#)

And Valerie S. told me;

Valerie S.

"I love what you're doing! Keep it up. Sorry, I don't have any criticism for you at this time."

I love getting messages like this. There's no better feeling than knowing your passion and hard work are appreciated.

One of my favorite recent letters came from J.T., saying, "This was the best single update I have ever received from Agora. Bravo to Stephen for saying it like it is."

Those are just a few of the notes I've received from my satisfied customers.

And \$2,000 is nothing compared to what you could soon see in life-changing gains...

Especially considering that you could see these gains starting as early as next month...

And \$2,000 is a drop in the bucket for the millions you could easily make — the *millions you could pass on to future generations of your family*. But it doesn't take \$2,000 to get started. Not today. Not for you. We have a tiger by the tail here, and forward-thinking, fast movers like you deserve the opportunity to come on board at the best possible price available...

Which leads me to this...

Why I'd Like to “Spot” You 200 Shares of the Two Companies We've Talked About Today

Earlier I showed you how just \$300 can buy you 100 shares each of two key companies I mentioned...

To buy 200 shares of those two premier companies would cost you \$600.

And if either one of these companies hits the way I'm expecting, that \$600 could turn into \$10,000... \$20,000... or more.

So to help you get started, I'm going to gift you that \$600 today... in savings off the cover price of my research service.

Instead of paying \$2,000, like everyone else, you'll pay just \$1,400.

Take the savings and buy 200 shares of each of the two companies. Or spend that \$600 savings however you want. It's up to you.

The bottom line is this...

No matter what you choose to do with these savings, you'll pay just \$1,400 for a full year of my research service.

All that potential. Millions upon millions of dollars in potential. For such a small price...

Act today, and you get **The Ultra-Wealth Preparation Pack**, the alerts, the issues, the full year of picks — EVERYTHING — for just \$1,400.

Just \$1,400. **For a chance to become ultra-wealthy. But that's still not all you get...**

I Know What You Want — So Here You Go

I think I know what kind of thinker you are.

You're smart and successful already. If you weren't — chances are you wouldn't still be reading this report from me today.

So I know you buy for VALUE more than you buy on PRICE.

You're looking for potential. For upside. For the chance at life-changing gains.

And since the urgency for you to claim your spot RIGHT NOW is so strong — I know I must provide you with even more VALUE...

Which leads me to this...

See, right now you can get your **Ultra-Wealth Preparation Pack**, read it, and read my monthly issues and weekly alerts — **virtually risk-free**. That's right. I'll even give you 60 full days to see if I'm right. Guaranteed.

Even if you're sitting on huge profits in that time, just from the companies I want to tell you all about. If I'm wrong and you're not happy with the opportunities I bring you, you can cancel up to midnight on the 60th day of your subscription to ***Breakthrough Technology Alert***.

No questions asked. We'll refund your subscription charge, minus a 10% handling fee.

Why the fee?

Well, we're dealing with a high-end market here. And the stocks I recommend have enormous upside potential.

And believe it or not, there are still people out there who “scam” the system. They buy the service, participate in the moves, and then cancel.

Because the opportunities are tremendous, these deadbeats ruin the plays for those serious readers.

It's sad, but true.

So this is to help us eliminate the tire kickers.

The 10% fee will protect real readers who choose to invest, and hopefully discourage fraud.

Again, this isn't personal.

If this sounds too aggressive, there's no ill-will from my side. There are tons of other services we publish without the refund fee.

But since distribution of **Breakthrough Technology Alert** is so limited...

And since the opportunities are so explosive...

I MUST do everything I can to make sure that every single person who signs up gets their money's worth.

I can only do that by insuring that every subscriber is 100% serious about being a part of this group.

But if you're still reading, I don't think you need to worry, because I seriously doubt you'll be canceling.

Because I'm not just delivering value to you today — I deliver value week in and week out — all year long.

I deliver the chance at life-changing ultra-wealth.

It's virtually risk-free. You can join **Breakthrough Technology Alert** and read the complete Ultra-Wealth Preparation Pack with no obligation whatsoever.

So there's absolutely no time to lose. No time to hesitate...

It's the market story of the century — and to see the biggest profit potential, I absolutely must hear from you right now — because there's no telling when the next piece of news will send these revolutionary companies rocketing even higher. There's no time to spare...

Claim your position on the inside today for a chance to become ultra-wealthy from what could soon develop into the most important industry in our history.

Here's to the amazing profits ahead...

Best Regards,

Stephen Petranek Editor, **Breakthrough Technology Alert**

September 2014

P.S. Remember, my research convinces me that the revolutionary companies in **5 World-Changing Companies to Deliver You Ultra-Wealth** will not only deliver vast fortunes to a select few, but they could also change how every single person on the planet lives... .

To see the earliest ultra-wealth — you absolutely must reply to this note from me RIGHT NOW. Who knows how far these tiny companies could rise on the NEXT shocking piece of news.

**Don't risk missing your
one shot at ultra-wealth!**
