

JUNGLE JUICE BLOOM 0-5-4

Maximize Your Bloom Phase With This 3-Part Base Nutrient

If you like the industries' common brand you'll love this a whole lot more, but at a fraction of the cost you've been used to paying. Why? Because theirs is a very simple formulation with extremely basic ingredients. So why pay more than you have to?

Jungle Juice Bloom has been specially designed for use with all hydroponics, sphagnum, and other growing media. **DO NOT USE WITH COCO COIR.**

Jungle Juice Bloom has been developed for use with any and all hydroponic and continuous liquid feed growing systems (aeroponic, drip irrigation, NFT, flood & drain, drip emitters).

GUARANTEED ANALYSIS:

Available Phosphate (P ₂ O ₅)	5%
Soluble Potash (K ₂ O)	4%
Magnesium (Mg)	1.5%
1.5% Water Soluble Magnesium (Mg)	
Sulfur (S)	1%
1% Combined Sulfur (S)	

Derived From: Magnesium Phosphate, Phosphoric Acid, Potassium Phosphate, Potassium Carbonate, Potassium Sulfate, Magnesium Carbonate, Magnesium Sulfate.

WARNING: DO NOT SWALLOW. KEEP OUT OF REACH OF CHILDREN.

For Best Results:

- Use a conductivity or ppm meter to monitor water quality and control nutrient strength. Drain, discard and replace nutrient every week or two to prevent nutrient imbalance.
- Maintain nutrient pH between 5.0 and 7.0. Adjustment may be necessary since water quality and pH vary both regionally and seasonally.
- Refer to the Basic Applications Table for mixing recommendations. Please measure accurately. Reduce nutrient strength if plants show signs of stress, or if growing in very bright, hot or dry environments.

Shake well before mixing. Always add Jungle Juice Micro to fresh water first and stir well, then add Jungle Juice Grow and/or Jungle Juice Bloom. Never combine Jungle Juice Micro with Jungle Juice Grow or Jungle Juice Bloom in undiluted form; doing so may cause nutrient lockout making some minerals unavailable. This product is concentrated to the limit of solubility. Protect from freezing and direct sunlight. If crystallization occurs, mix entire contents with an equal amount of hot water and double the amount used.
