Buttery

To add richness and depth of flavor to your dish, try Buttery. With the yummiest taste, it is perfect to use as spreads and with sweets or baking. You can also try it with sauces, soups, and salad dressings. It can also be used as a spread on toast or crackers or as a dip for fruits and vegetables.

Buttery can be used in various ways, spread on bread or toast, use it in smoothies, or as an ingredient in baking recipes. The tremendous popularity of Buttery has resulted in the company expanding its product line to include a variety of other nut butter products, such as peanut butter cups and almond butter bars.

Buttery by Contemporary Foods provides a convenient and delicious way to enjoy nuts' flavor and health benefits without all the work. Buttery is all delicious in its own right, but if you're looking for a specific flavor profile, Buttery is the best option; it's sweetened with date powder. The concept of Buttery was born out of the need for a healthy and delicious snack that could be enjoyed, not just eaten.

Give a lip-smacking flavor to your breakfast with buttery. Just add it to your bread or have it as it is; this will be equally yummy!

What Makes Buttery Different?

What sets Buttery apart from other brands other than the quality of its ingredients, is the use of date powder as a sweetener. This way you can indulge in the richness of its sweet flavor with no added sugar. All of the nuts used in our products are roasted to perfection. This gives buttery a deep, rich flavor unlike anything else on the market.

Mouth-Watering Flavors

Buttery comes in a variety of delicious flavors. The original line features natural peanut, almond, and cashew vanilla butter. Buttery has since expanded its flavor offerings to include salted caramel pecan, Cashew Tahini, and many more.
