Wake up to Nukk-Freeman & Cerra, P.C. -
A Dynamic Employment Law Firm

In 2006, founders Suzanne M. Cerra & Katherin Nukk-Freeman launched their unique firm based on a simple concept: employers needed to pour less of their resources into lawsuits brought by employees and more of their legal resources into PREVENTING litigation.

A mission began to percolate--to offer clients a perfectly balanced business model that would avoid litigation while optimizing business and legal goals. They carefully hand selected their legal team, a fine blend of consummate professionals, communicators and A-players. The firm picked the most talented, bold attorneys at the peak of freshness, from the finest law firms and in-house legal departments in the region. In just a few short years, Nukk-Freeman & Cerra, P.C. has more than quadrupled its client base and staff while still serving up the most cost-effective counsel, brimming with responsive client service, 24/7.
