## LET'S FACE IT...

Today, we have more scientific and technologically-based knowledge about disease, treatment and prevention than ever before. Yet, despite all the promising medical breakthroughs, **our current healthcare system is not designed to deliver the optimum protection you want.**

Because of rising costs and lower insurance reimbursements, **medical professionals are forced to care for a growing number of patients**, cutting into the time they need to manage their skills and stay ahead of ever-changing clinical innovations. It's a paradox of progress; one that frustrates your doctors, your neighbors and your elected officials.

## WHAT'S IT ALL ABOUT?

It's a members-only premium healthcare system designed to work with your physician to upgrade his /her care. **Created with your busy schedule in mind**, Indigo Elite Care is a complexly engineered solution that combines individualized health services with cutting-edge medical technology and pioneering preventative care.

Developed by a nationally recognized team of healthcare experts at the top of their fields, Indigo Elite Care's **sophisticated, 3-step approach to personal care and longevity** features:

- Proprietary computer modeling
- Advanced lab testing
- Detailed fitness profiling
- Professional advocacy support
- Preventative care planning and so much more.
