

THE AMERICAN DREAMING.

At American Textile Company, the American Dream came true. We were founded by four determined brothers, and what they built grew into an innovative company with 90 years of experience and growth. Every stitch was made right here in America by your fellow Dreamers, manufacturing the best sleep solutions from sea to shining sea. Our products satisfy all bedding needs and give you peace of mind when you lay your head down at night. Whenever you fall asleep with American Textile, you become part of the American Dreaming.
