

About Raffiné

[Who We Are](#) • [Customer Testimonials](#)

Raffiné has a mission: to create the ultimate instrument of chocolate pleasure.

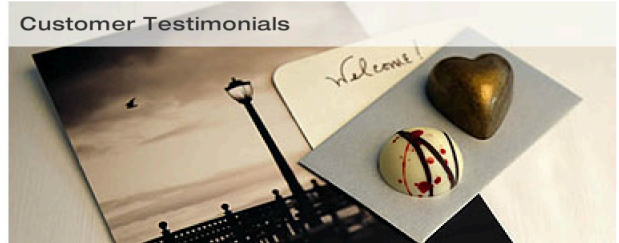

This the company achieves by pairing the finest chocolate available with the ideal blend of flavorings and textures, and finishing each confection with a design so elegant, so enticing, that no self-respecting chocolate lover can leave it on the shelf.

Raffiné exclusively produces fine artisan chocolates from Old World European recipes still used today by master chocolate makers abroad. Company founder Mona Keady created Raffiné out of a desire to bring the European chocolate experience to the U.S. To produce these confections, the company employs classic European techniques, then adds Keady's special touch. Raffiné blends the world's finest chocolates with fresh fruit purees, spices, and specialty flavorings, all wrapped in elegant decorative casings as pleasurable to the eye as they are to the palate.
