### Best Nintendo Switch case to protect your console in 2021

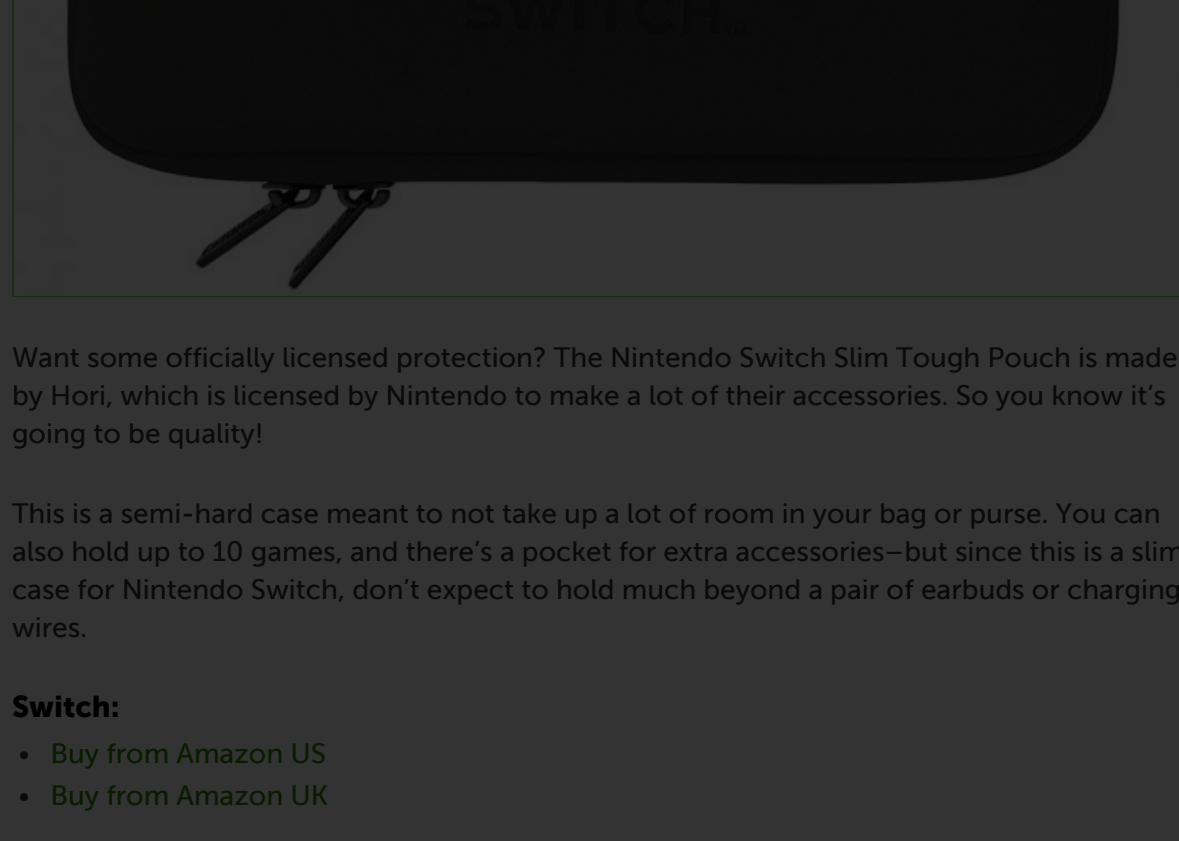

By Elizabeth Henges | 1st April 2021 | [Facebook](#) | [Twitter](#) | [Reddit](#)

The Nintendo Switch is a portable console, but you don't want to risk taking it outside without protection! Even if it's a Nintendo system, the Switch is a delicate electronic, and you don't want to risk scratches and dings in your bag, nor do you want to drop it. You'll want to protect your Switch with a case, and we've got you covered. We've rounded up seven of the best Nintendo Switch cases below!

Oh, and also, you can also pair these with any of our picks for the best Nintendo Switch screen protector and other Nintendo Switch accessories to make sure you have everything you need.

#### Nintendo Switch Slim Tough Pouch

Want some officially licensed protection? The Nintendo Switch Slim Tough Pouch is made by [Hori](#), which is licensed by Nintendo to make a lot of their accessories. So you know it's going to be quality!

This is a semi-hard case meant to not take up a lot of room in your bag or purse. You can also hold up to 10 games, and there's a pocket for extra accessories—but since this is a slim case for Nintendo Switch, don't expect to hold much beyond a pair of earbuds or charging wires.

#### Orzly Nintendo Switch Carry Case

If you're looking for a case that offers everything you need without being huge, Orzly's carrying case is a great bet for a low price. This is a hardshell case that will protect your Switch from any majors falls and whatever else may happen while out and about.

With room for eight Switch carts and two extra pockets, you'll be able to store your Switch power bank and everything else you need. Not to mention the free screen protector! Available in a variety of colours, this is the best hardshell case to pick up for your handheld.

#### PowerA Everywhere Messenger Bag

If you want to store everything (and I mean everything), you might want to consider the PowerA Messenger Bag. This can easily store your Switch, the dock, and extra controllers and other accessories. If you take your console out of the home to set up at others' houses a lot, this will be an ideal Nintendo Switch case for you.

If you want, you can also get the messenger bag, but that's a lot of extra space you don't need if you're not lugging around a dock and controllers. It's probably better to get something like the slim case above and use a normal messenger bag instead.

#### JETech Protective Case

If you're not planning on taking your Switch outside, you don't really need a travel case like most of the products on this list. However, both the Switch and Switch Lite are pretty thin, and getting a case that gives you a bit more of a grip can help when playing in handheld mode.

On top of that, JETech's case can shield your handheld from shocks and drops, which is helpful inside and outside the house!

#### Funlab/PALPOW Leather Carrying Case

Who doesn't want to pull out a Snorlax Nintendo Switch carrying case? Made by Funlab and PALPOW, this statement while protecting your Switch or Switch Lite.

The case can also hold 5 additional carts, which is a nice bonus. It's available in a variety of cases, but do you really need more? It's the price.

#### Daydayup Nintendo Switch Accessory Bundle

If you really want to have a bunch of physical games with you at once, you might want to look into Daydayup's Nintendo Switch case. You can hold 20 Switch carts in this case, which for its size, is pretty impressive! The case isn't exactly a messenger bag, after all. The big top pocket has enough room for an extra pair of Joy-Cons and the charging brick, too!

This is an accessory bundle, though, and you'll get more than a case with this purchase. You'll also get Joy-Con analog stick grips (with paw prints, so cute!), screen protectors, and a transparent shell to encase your Switch. It's a pretty darn good deal!

#### Tomtoc Slim Nintendo Switch Case

I really like the Tomtoc Nintendo Switch cases – they're actually the ones I use for my Switch and Switch Lite! This is a hardshell case that is slim and protects the analog and buttons with the way the case is crafted. No worries about damage from the console jostling around!

Both the Switch and Switch Lite have a bunch of different styles available, too, from cases that match your colour scheme to wild ones like the Moon-themed case. You can hold 10 games in the Switch case, and 8 in the Switch Lite case.

Found a suitable Nintendo Switch case there, we hope? But that's not all! We've also got loads more Nintendo Switch related goodies across the site. If it's storage you're after, there's our guide to the best Nintendo Switch SD card. To ensure you've got the precision you need for some games, you might want to pick up a Nintendo Switch stylus. Or, lastly, you can take a look at the best Nintendo Switch controller for when the in-built Joy-Cons on the Switch Lite aren't good enough.
