

NO MORE CHIPPING YOUR PLATES

The days of skinning your knuckles and chipping your plates on the face frames of cabinetry are long gone!

Menards® has launched a Cabinetry line that has the industry talking! You want in on the secret?

A New Kitchen Cabinet Concept!
That’s the best way to summarize the magic that is Klëarvüe Cabinetry®. Klear- what? Klëarvüe (pronounced Clear View) is a cabinetry brand available exclusively through Menards® that offers the look and feel of custom cabinetry while being affordable. You may find yourself saying- I don’t understand; there’s a catch, tell me more...

So, What Makes Klëarvüe Better?
Klëarvüe Cabinetry® was created around frameless cabinet construction. Traditionally a Scandinavian way of manufacturing cabinets - it is growing in popularity throughout the Midwest. Frameless, or “full-access” cabinetry eliminates the bulky face frame one would typically see around a cabinet box.

Frameless Construction

Framed Construction

It allows you to have more versatility of the cabinet configurations which feature doors, drawers and pull out interiors. With traditional framed cabinetry, you have to remove doors and drawers from your kitchen cabinets in order to install them. Not with Klëarvüe. You will install the factory assembled cabinet boxes first, then add in your door and drawer fronts- talk about a time saver!

■ **Deeper Wall Cabinets.**
16.5% more storage space than traditional framed cabinetry. Easily fits all of your dishes!

■ **Simply Clean, Classic and Timeless.** This kitchen features: soft close doors and drawers, pull-out trash cabinet, a 30” wide built-in appliance unit and more! In the time it would take for custom cabinetry to arrive on site, this family was already settled in and starting the next chapter of their home remodel. This cabinet shown in: Strömma® Gray finish.

Your Time Is Precious.
Almost half of consumers will choose to go with a custom cabinetry of some sort. You will spend your time working with a designer, arguing with your spouse on which cabinet would suit your layout best, spend a considerable amount of money and then wait up to 4 weeks (sometimes longer) for your cabinet order to arrive. Then you have to have your cabinets installed. **Save your marriage** or at least the added stress and choose Klëarvüe Cabinetry®. Cut out weeks of stress on a tore up remodel. Klëarvüe is a cabinetry line that you can take home in just 1 week or less!

■ **Changes Made Easy.**
Doors and drawer fronts pop on and off quickly if you ever want to change your kitchen’s look!
Klëarvüe offers 38 different cabinet box sizes that are available in multiple heights and widths. When combined with door and drawer fronts, you can create over 250 different cabinet configurations. Think of Klëarvüe as **adult building blocks**, meaning pieces are combined together to create one cabinet configuration. Klëarvüe offers 7 cabinet front finishes that are sure to fit any design that you are working on.

Change configurations years down the road- Yourself!

Year 1: Door with Shelves Year 3: Pull Out with Interior Drawer Year 6: Two Drawers

“The installation went well! I never installed kitchen cabinets before. I love the fact that I could change or add components as the installation progressed!”

- Jim H., Orland Park, IL

ForeverFlexible to Suit Your Needs!
Guess what? If you find out 5 years down the road that you wish you would have added more drawers for your kitchen - no worries! With Klëarvüe's component based system, you can change a door configuration to a drawer configuration with just a Phillips head screwdriver.

■ **Soft Close Everything.** Klëarvüe features standard soft close doors and drawers for a silent shut.

Design Your Dream Kitchen Today!
Klëarvüe Cabinetry® is giving you the opportunity to become the designer of your cabinetry layout. We’ve spent Millions in creating a **Free Online Cabinetry Designer** so you can measure, plan and purchase from the comfort of your own home!
