**Add floodlights and power to your O gauge military!** How? With this Military Generator Car! It not only features 2 swiveling LED floodlights and a generator, but its lights can also rotate a full 360° and pivot to nearly any angle. The generator is also an impressive piece with its authentic olive drab paint scheme and U.S. military markings. And, because safety is important, its O scale engineer is wearing a hardhat and bright orange safety vest. On this beautiful display, he can't be missed!

This 14-3/4" generator car rides super low and boasts a real-wood composite deck. It also includes die-cast couplers with fully sprung trucks and a swing-type drawbar, so navigating an O27 curve is no problem at all!

The floodlights are battery operated and will illuminate with the addition of 2 "AA" batteries (sold separately).
