

Top Christmas Tree Trends

How do you trim your tree? While some people prefer traditional color combinations, others like to pair bright and buoyant hues together to create a one-of-a-kind Christmas display. Whether you like to stick to the tried-and-true methods or test out new trends, it's always fun to switch up your style. This year, brighten up your Christmas decor with one of these popular Christmas tree trends!

Winter Wonderland

Show off your Christmas spirit by trimming your tree with shades of White. Simple yet understated, this monochromatic look is easy to replicate. Beginning with either a white or partially flocked artificial tree, you can provide the perfect backdrop for your wintry display. Since both trees realistically mimic the look of fresh snowfall, they add a dash of drama to your decorations. Thread White mini lights throughout to make your tree really shine. Then, once your lights are in place, hang various ornaments that feature hints of White, Ivory, Cream and/or Silver (glittery snowflakes, garland, bows, etc.) all over your tree. This beautiful, White-on-White color scheme will enhance your space with its frosty touch.

- 7' White Andover Christmas Tree
- 7-1/2' Keystone Spruce Christmas Tree
- 210-Light Smooth Mini LED Christmas Light Set
- 4-Pack Gold/Clear Glass Ornaments
- 4-Pack White/Clear Glass Ornaments
- 11" Glitter Snowflake Ornament
- 5-Pack Glitter Snowflake Ornaments
- 15' Mini Tinsel Garland - Silver

Merry Metals

Elevate your traditional Christmas display by incorporating some metallic tones. Within the last few years, metallic decor has become a Christmas mainstay. Unlike the typical Green/Red color combinations, metallics exude an easy elegance through their gilded appearance. Since earthy, metallic colors tend to pop more when placed in a mostly green scene, you should start your own stylish display with a full and verdant tree. Sticking to a limited color palette of Gold, Silver and/or Copper, layer Gold mini lights and assorted metallic ornaments onto your tree branches. By combining modern metallics with glittery lights, you'll be able to create an amazing, avant-garde Christmas display.

It's a Colorful Life

Enhance your home this holiday season by dressing up your space with a spectrum of color! For a more distinct look, replace conventional colors with jewel-toned hues. This kaleidoscope of color will not only give your tree a unique personality, but it will also add a festive air to your seasonal setup. You can begin this stunning spectacle by draping White mini lights around your tree. These lights will act as a neutral accent, heightening the effect of your whimsical color palette. Then, add an assortment of Teal, Purple, Blue and/or Lime Green decorations to your tree. When evenly distributed, these rich colors create a captivating display that delivers lots of Christmas cheer.

Natural Noel

Make your home warm and welcoming by decorating your tree with natural accents and rustic touches. With just a few materials, you'll be able to transform your everyday space into a quaint holiday hideaway. Begin your take on this traditional display by wrapping White and/or Gold mini lights around your tree; these particular colors produce a subdued yet natural backdrop that beautifully captures the natural elegance of organic ornaments. Then, adorn your tree with various decorations that look like they have been plucked from winter's picturesque landscape. Pinecones, holly berries, burlap, and even small woodland creatures fashioned from sisal are perfect choices. Steeped in the timeless tones of Red and Green, this delightful tree theme stuns with its elegant simplicity.

- Sisal Bird Ornament

Awesome Ombre

Add a stylish statement to your home this holiday season by dressing up your tree in ombre. A glittering combination of style and sophistication, this popular trend employs a gorgeous color gradient that gradually shifts from light to dark tones. After settling on one singular color (anything from Red to Black will do), add mini lights in your chosen color to your tree. Then, using shatterproof ornaments in assorted shades, place the lightest tones at the top of your tree. Working downward, add increasingly darker shades. A brilliant alternative to traditional holiday displays, this ombre design beautifully blends monochromatic color to produce an extraordinary Christmas tree theme.
