## CAT SCRATCHING SOLUTIONS

Cats have claws; that's just a fact. But what do you do when their razor-sharp nails scratch up everything in sight? You can save your home from your cat's destructive ways by following the 3 D's rule: Deter, Displace and Dull.

### **Step 1: DETER** scratching with pet-safe repellents.

Pay special attention to areas where your cat likes to scratch. Then, cover those specific spots with either SmartyKat® Scratch Not™ Training Spray or SmartyKat® Scratch Not™ Tape. While the spray masks your décor in a pleasant lemon and eucalyptus smell, the tape creates a smooth protective barrier. Cats are highly susceptible to strange smells and textures, so they will stop shredding your furnishings when these solutions are in place.

### Step 2: *DISPLACE* where your cat scratches.

Cats have an instinctual need to scratch. So, to encourage productive playtime, provide your pet with their own special scratching spot. Available in many configurations, cat scratchers use a combination of carpet and sisal to encourage cats to play and scratch. Choose from catnip scratchers, scratching posts, multi-level scratchers and more!
