

WITH YOUR HELP,
WE WILL GET
THROUGH THIS
TOGETHER.

DEAR MOUNTAIN NEIGHBOR,

In these weeks of sheltering in place, and in a world vastly changed, one thing remains the same – the heart and love that our Mount Evans Home Health Care & Hospice clinicians invest in their patients. In 40 years of providing home health, palliative care, hospice services, and grief and bereavement support, nothing has stopped our incredible nurses, physicians, therapists, social workers and chaplains from caring for the most vulnerable and underserved in our communities – And COVID-19 won't stop us either!

In this uncertain time of the Coronavirus, Mount Evans will continue to provide the same award-winning quality care to our communities despite the fact that this pandemic has changed everything for us.

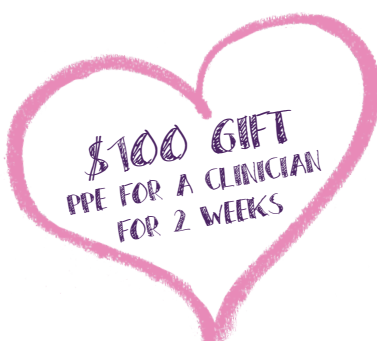

- **We have been proactive and are now providing both our clinicians and patients personal protective equipment (PPE)** – an essential unbudgeted expense that protects our patients and the heroes who take care of them.
- **We have developed a telehealth program enabling 'virtual' visits to protect our patients** – visits that are not reimbursed by insurance providers.

These unbudgeted costs have added financial pressure to the agency, but that has not changed our focus on providing quality health care and support to our neighbors and friends who need care to get through one of the worst moments in their life. We have never turned anyone away and never will!

Our Mount Evans family has an unwavering commitment to provide care and comfort to all who need it. You can make a profound and lasting

difference with a gift to Mount Evans at this unprecedented time. Please make a gift online at www.mountevans.org/covidsupport or use the enclosed envelope to send a check or give by credit card. Your \$100 gift will pay for PPE for a clinician for two weeks, while your \$250 gift will cover the cost of a hospice, home health or palliative care visit.

For the past 40 years, when the mountain communities have needed Mount Evans' help, we have been there.

Now Mount Evans needs YOUR help.

Sincerely,
The Staff and Board of Directors

MOUNT EVANS
HOME HEALTH CARE & HOSPICE
