Littleton, CO 80123

Belmar ER - Now Open
260 South Wadsworth Blvd.
Lakewood, CO 80226

Sometimes it takes much more than just a kiss to make your child feel better. Emergencies happen — and when they do, you want expert emergency care that is quick and close to home. Swedish Medical Center is pleased to announce the opening of the new Belmar Emergency Room in Lakewood. Located at 260 South Wadsworth Blvd., our brand-new, state-of-the-art facility provides adults and children the care they need, when and where they need it most.

The Belmar ER is open 24/7. This means you can rest assured that no matter what time of day or night, board-certified emergency physicians are ready to treat your urgent and emergent medical conditions.

Our registered nurses all hold pediatric certifications, and we have dedicated pediatric supplies and medications. However, our team treats patients of all ages — so whether your loved one is young or fully grown, we have you covered. You can expect the same care and equipment you would expect to find in a hospital-based emergency room. The only difference is ... we've brought it closer to you to make it easier to access.

The Belmar ER accepts all forms of insurance, including Medicaid and Medicare.
