Boulder March for Babies
Duane Physics Lawn
University of Colorado Boulder

Saturday, April 23, 2016

Registration: 9:00 a.m.

Walk Starts: 10:00 a.m.

Nearly
7,000
Colorado babies are
born prematurely
every year

Avista's NICU
is proud to care for
approximately

350

of these courageous
patients every year

Lane Bobb was born
at Avista Adventist Hospital
at 28 weeks, weighing just 2 pounds, 4 oz.
He's spent more than two months growing
stronger in our neonatal intensive care
unit.

As his lungs have developed, Lane has
graduated from a ventilator, to pressurized
oxygen to just oxygen. Although it's still
too early, his mom Roelyn is looking
forward to the near future when her
son can breathe without help.

Lane is both an inspiration and an example
of the incredible care that allows micro
preemies to thrive. His story will have
a happy ending but many of the one
in 10 babies born prematurely in the
United States do not. That's why Avista
has partnered with the March of Dimes
to raise money for awareness and
research so more moms can have healthy,
full-term babies.

Avista Adventist Hospital

We are part of Centura Health, the region's leading health care network.

Centura Health does not discriminate against any person on the basis of race, color, national origin, disability, age, sex, religion, creed, ancestry, sexual orientation, and marital status in admission, treatment, or participation in its programs, services and activities, or in employment.
