

SMART PARKING MANAGEMENT

DELIVERING SMOOTH AND INTUITIVE PARKING EXPERIENCES

EFFICIENT CAR PARK MANAGEMENT

- Automatic detection of available parking spaces
- Automatic control via license plate recognition and under-vehicle screening systems
- Video surveillance for vehicle-related security events
- Robust parking log with vehicle data and alarm info

SMOOTH CUSTOMER EXPERIENCE

- No congested entrances or exits
- Available parking spaces indicated by arrow & colour
- Find-my-car terminals
- Effortless navigation through the car park via the shortest, most convenient routes

HIKVISION RETAIL SOLUTIONS

INTELLIGENT INNOVATION FOR MINIMUM RISK AND MAXIMUM BUSINESS

All-in-one solutions for modern retail security, marketing and operations challenges with integrated installations that enable:

- Smart queue management with notification function for a positive customer shopping experience
- Intelligent POS integration for comparing label and item image with alarm at detection of mismatch
- Digital signage solutions for automatic customer-specific in-store marketing

Visit us at **EuroShop** from 16 to 20 February in **hall 6 booth G01** and at the **EHI Mittelstand 4.0 Competence Center Retail** in hall 3.

FLEXIBLE SOLUTIONS FOR THE NEW NORMAL

- Temperature screening: Check for elevated skin surface temperatures in visitors with thermal cameras or MinMoe access control terminals
- Mask detection: Screen automatically whether visitors are complying with the mask requirement and give an audio reminder when they are not
- Visitor density screening: Monitor the amount of visitors entering and combine it with a digital signage post to show available capacity to visitors at the entrance

FOCUS and ACT

ACUSENSE TECHNOLOGY INTELLIGENT ALARM FILTERS AND TARGET SEARCH FEATURES

With Hikvision's AcuSense technology, small and medium businesses can incorporate the latest advances in deep learning technology into their existing security systems with just one AcuSense camera or one AcuSense DVR/NVR.

2-WIRE VIDEO INTERCOM

It's time to upgrade your system!

- All the benefits of IP with only 2 wires for data and power
- High quality of audio even on noisy streets
- Intercom, communication, doorbell, monitoring, door opening, network and alarm functions
- Common Hikvision software and mobile application for remote control
- Modular flexibility to choose from
- Easy configuration
