

Rivet Education Company Summary

Rivet Education provides exceptional, next-level resources for students in every classroom to succeed. High-quality instructional materials (HQIM) are used to help ensure teachers have the tools they need to supply their students with a top-notch curriculum. The Professional Learning Partner Guide (PLPG) is a key feature used to provide K-12 school districts with a searchable database for top national and local professionals who are advocates of adopting and implementing the HQIM platform. There are also state-specific PLPGs, and other PLPG support and academic strategy consulting services offered to enhance the experience of utilizing HQIM.

Additionally, Rivet Education has several core values in place that empower our instructors to not only be great teachers, but great people. Rivet strives to transform education to be both personally rewarding and professionally challenging. This ultimately leads to a strong dynamic between the teacher and student, and builds a healthy mentoring relationship through clear, effective instruction. Students leave their programs feeling extremely accomplished and ready to take on the next step in their education and future career paths. Rivet Education continues to be a leader in creating the ultimate vision for success and bringing teachers, students, and parents together to stay connected and foster an engaging classroom atmosphere.
