

## **Pitch**

Idea: The East Gippsland shire council's meeting last month's agenda outlined a \$2.4M upgrade to the Bairnsdale industrial estate's water supply through a bushfire recovery scheme.

I have written a hard news story about the upgrade and how East Gippsland has struggled and moved through now bushfire and pandemic.

Partnering colour story about a local business affected by the bushfires, have already spoken to the art gallery as they not only have been affected but also their local artists, they are willing to be a used source.
