

Stokolan® intense replenishing

Skin Care

Intensive conditioning for very dry and sensitive skin. Contains natural, skin nourishing ingredients.

Description

Stokolan® intense replenishing is a highly concentrated, silicone free conditioning cream that contains grapeseed oil, ceramide complex, allantoin, ginkgo biloba, urea and beeswax.

Stokolan® intense replenishing contains a high amount of lipids, 90% of natural origin, which reduces water loss and helps to enhance skin elasticity.

The physiological lipids cholesterol and ceramide help to support the self-regulatory processes of the skin barrier. This concentrated conditioning cream replenishes the skin with highly effective active ingredients and helps the skin's moisture balance. The skin is deeply moisturized and becomes smooth and supple, making Stokolan® intense replenishing suited for helping to support the prevention of attrition dermatitis.

ECARF Seal of Quality

The European Centre for Allergy Research Foundation (ECARF) awards the ECARF-quality seal to allergy-friendly products. Cosmetics can receive this seal when following criteria are met:

1. Quantitative risk assessment of the product ingredients with respect to their potential for sensitization, taking into account their specified conditions of use and amount.
2. Medically supervised clinical trials by volunteers with atopic dermatitis.
3. Approved system of quality control management.

Features and Benefits

Features	Benefits
contains 10% grapeseed oil	• contains over 70% essential fatty acids and helps to build up the lipid membrane of the skin
contains urea und sorbitol contains beeswax (cera alba)	• excellent skin hydrating and moisturizing properties • smoothes the skin
contains allantoin, vitamin E and ginkgo biloba	• supports cell and skin regeneration
contains Skinmimics®, a highly active complex of ceramides, cholesterol and sphingosines	• optimized composition adapted to the structure of lipids in the skin's surface • supports stimulation of the skin's own lipid synthesis and skin renewal • enhances skin moisturization as well as elasticity
dermatologically confirmed skin compatibility ECARF awarded	• very good skin compatibility • ideal for people suffering from allergies
silicone-free paint compatible won't affect the cohesion of rubber	• can be used in almost any production process

Areas of Application

Stokolan® intense replenishing is ideal for use in any industrial setting, as well as many other workplace settings.

Stokolan® intense replenishing provides long-lasting care for very dry and stressed skin.

Suitable for facial and body care.

Instructions for Use

Apply only to clean and dry skin.

Rub small amount of Stokolan® intense replenishing on to the areas of skin at risk, including between the fingers and on the fingernails.

Stokolan® intense replenishing should be regularly applied after work. In cases where no special before work skin products are used, it can be applied before work and after breaks. Suitable for facial use as well.
