

Stokolan® hand&body lotion

Skin Care

Daily conditioning with superior active ingredients

Description

Stokolan® hand&body is a hydrating and skin smoothing lotion with creatine, allantoin, glycerin and an innovative Smooth Complex developed by the Evonik group. It enhances skin elasticity and smoothes the skin's surface. The active agent complex consists of the biopolymers, hydrolyzed sclerotium gum and sodium polyglutamate, as well as a natural moisturizing factor (NMF*) from urea and potassium lactate. Hydrolyzed sclerotium gum is a low molecular weight scleroglucan that helps to protect the skin from environmental damage and leaves skin feeling smooth and healthy. Sodium polyglutamate coats the skin with moisture binding properties that keep it smooth and supple. Potassium lactate is responsible for the preservation of the stratum corneum's physical properties. The amino acid betaine - trimethylglycine is osmotically active and has excellent moisture retention capacity.

Stokolan® hand&body regulates the moisture balance of the skin, smoothes it and helps to stabilize the skin's barrier. 98% of the ingredients are of natural origin or are nature-identical. Stokolan® hand&body is easy to apply and swiftly absorbs without leaving an oily film on the skin.

ECARF Seal of Quality

The European Centre for Allergy Research Foundation (ECARF) awards the ECARF-quality seal to allergy-friendly products. Cosmetics can receive this seal when the following criteria are met:

1. Quantitative risk assessment of the product ingredients with respect to their potential for sensitization, taking into account their specified conditions of use and amount.
2. Medically supervised clinical trials by volunteers with atopic dermatitis.
3. Approved system of quality control management.

Features and Benefits

Features	Benefits
Superior care effect and quick absorption properties	<ul style="list-style-type: none"> • does not leave an annoying oily film on the skin • ensures smooth and conditioned skin • hydrates and conditions the skin • suitable for the whole body
skin neutral pH (slightly acid)	<ul style="list-style-type: none"> • helps preserve the natural acid mantle of the skin that protects the skin from bacterial or fungal infections
contains allantoin and glycerin	<ul style="list-style-type: none"> • helps support activation of cell regeneration • enhances the water holding capacity of the skin's horny layer and supports the skin's own moisture system
contains creatine, an amino acid derivative produced by the body	<ul style="list-style-type: none"> • helps support cell renewal and the production of connective tissue • enhances energy metabolism of skin
contains the unique Smooth Complex based on biopolymers, NMF* and amino acids	<ul style="list-style-type: none"> • enhances skin elasticity • improves skin smoothness and reduces roughness • long-lasting moisturizing (moisture generating) effect
dermatologically confirmed skin compatibility ECARF awarded	<ul style="list-style-type: none"> • very good skin compatibility • ideal for people suffering from allergies
silicone-free will not contaminate production materials such as rubber and electronic capacitors; nor metal surfaces to be painted	<ul style="list-style-type: none"> • can be used in almost any production process

Areas of Application

For the effective care of normal skin. Suitable for use on the entire body.

Instructions for Use

Apply only to clean and dry skin. Rub small amount of Stokolan® hand&body on to the areas of skin at risk, including between the fingers and on the fingernails.

Stokolan® hand&body should be regularly applied after work.

Product Description

White, perfumed, silicone- and paraben-free soft cream of the emulsion type oil-in-water (O/W).

Ingredients*

AQUA (WATER), ISOAMYL COCOATE, GLYCERIN, CAPRYLIC/CAPRIC TRIGLYCERIDE, POLYGLYCERYL-3 DICITRATE/STEARATE, MYRISTYL MYRISTATE, ALLANTOIN, CREATINE, POTASSIUM LACTATE, SODIUM POLYGLUTAMATE, HYDROLYZED SCLEROTIUM GUM, UREA, BETAINE, CERA MICROCRISTALLINA/PARAFFIN, HYDROGENATED CASTOR OIL, ACRYLATES/C10-30 ALKYL ACRYLATE CROSSPOLYMER, STEARYL ALCOHOL, BENZYL ALCOHOL, BENZOIC ACID, SORBIC ACID, SODIUM HYDROXIDE, PARFUM (FRAGRANCE).

*The ingredient declarations used are in conjunction with the International Nomenclature of Cosmetic Ingredients (INCI).

Skin Compatibility Tests

Stokolan® hand&body is proven to have very good skin compatibility properties in human-experimental tests and in practical use.

Medically certified skin compatibility expert reports prepared by Prof. Dr. med. S. W. Wassilew, Ret. Director of the Department of Dermatology Krefeld Hospital, MD for Dermatology, Allergology, Environmental Medicine, are available upon request.

Shelf Life

Stokolan® hand&body can be stored in a closed container at room temperature for up to 30 months.

All STOKO® products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity.

First Aid

For external use only. If product accidentally enters the eyes, flush immediately with lukewarm water.
