

Solopol® ultra

Skin Cleansing

Solvent-free hand cleanser for medium to heavy-duty dirt and soils.

Description

Solopol® ultra is a completely solvent-free hand cleanser that contains a non-aggressive natural scrubber. It has very good skin compatibility and excellent cleaning power in cases of extra-heavy industrial dirt. Solopol® ultra cleans deeply without damaging the skin. Its very good skin compatibility is achieved by the use of skin-friendly surfactants in combination with natural canola oil.

Solopol® ultra does not clog drains or pipes. It is easily rinsed away and is not prone to swelling.

Areas of Application

For extra heavy-duty contamination, such as grease, mineral and lubrication oils, metal dust, graphite and carbon black, which usually can only be removed with a product containing solvents.

Features and Benefits

Features	Benefits
contains all natural, biodegradable walnut shell scrubbers (Astopon®)	<ul style="list-style-type: none"> • has a particle size that is gentle on skin • is biodegradable and poses no problems for waste-water treatment or waste-water sludge. • is a renewable raw material and therefore kind to the environment • does not strain the environment by depleting timber supplies • easily rinses away, preventing blocked drains and pipes
contains Eucornol®	<ul style="list-style-type: none"> • helps to prevent skin irritation
non-soapy pH neutral (slightly acidic)	<ul style="list-style-type: none"> • helps to stop skin swelling • helps to maintain the natural acidic protective mantle, whose function includes protecting the skin from bacterial and fungal infection
very easily biodegradable, mild surfactants	<ul style="list-style-type: none"> • kind to the environment
dermatologically tested	<ul style="list-style-type: none"> • minimizes the risk of skin incompatibility

Skin Compatibility Tests

Solopol® ultra is proven to have very good skin compatibility properties in human-experimental tests and in practical use. Medically certified skin compatibility expert reports prepared by Prof. Dr. med. S. W. Wassilew, Ret. Director of the Department of Dermatology Krefeld Hospital, MD for Dermatology, Allergology, Environmental Medicine, are available upon request.

Shelf Life

Solopol® ultra can be stored in a closed container at room temperature for up to 30 months.

All STOKO® products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity. Hand cleaners may become cloudy or freeze partially at temperatures of 32°F or below. However, they are usable after thawing.

First Aid

For external use only. If product accidentally enters the eyes, flush immediately with lukewarm water. Contact a physician if burning sensation persists.

Consult a doctor if ingested.
