2.) How Can You Get Followers Fast?

Like any social media account, you could do the long route and build up your audience through your content. However, it takes luck and a lot of effort to achieve that, since most people won't see your content due to the lack of exposure. Hence why we recommend buying Instagram Followers and Likes in order to help you grow and expose you from many more followers that might be interested in your profile.

3.) How Can You Tell If You Have Follower That Is Fake?

Most bots simply don't interact or have a profile picture that is easily taken from Google Images. Additionally, most don't have any information on their profile and don't post their own content. Very suspicious!
