## Thanks for your interest in the world-renowned Game Studio!

Your free poster is on the way.

Soon, you'll receive one of our student-designed game art posters—hang it in your room or above your workspace at home, or display it on your desk for some added motivation.

Should you choose to study at Champlain, you'll become fully immersed in the game industry, working in collaborative teams with other game students in state-of-the-art game labs, taught by faculty who are experts in the industry. Our graduates go on to work at game development studios around the world, including Ubisoft, Sony Bend, and Insomniac Games.

We invite you to explore below to learn more about what Champlain has to offer to students who have a passion for games.

## Champlain's Game Majors

Take your interest in games to the next level

## Game Design

Gameplay systems, narratives, levels, quests, puzzles, worlds: Become an expert in the game design areas you're most passionate about.

[LEARN MORE](#)

## Game Art

Develop the artistic and technical skills needed to create the 2-D and 3-D environments, characters, and animations seen in the games millions of people play every day.

[LEARN MORE](#)

## Game Sound Design

Build tension, amplify action, and design the perfect atmosphere—a good video game relies on a great soundtrack.

[LEARN MORE](#)

## Game Programming

Gain cutting-edge skills and experience that will make you an outstanding candidate for a position as a programmer in the game industry—or any industry.

[LEARN MORE](#)

## Game Production Management

The game industry needs individuals with an aptitude for communication and business—people who can manage a game development team to create innovative and exciting new games.

[LEARN MORE](#)

## Game Business & Publishing

What happens after the game is ready to hit shelves? In this program, you'll learn all about the business of publishing, marketing, and selling video games.

[LEARN MORE](#)

Champlain is one of the few, if not the only, game programs that focuses on team-based work in its curriculum. On top of our amazing work, we're much more hireable straight out of the gate.

LEANNA RUSSELL '20 // GAME ART

Study abroad in one of the world's largest game hubs.

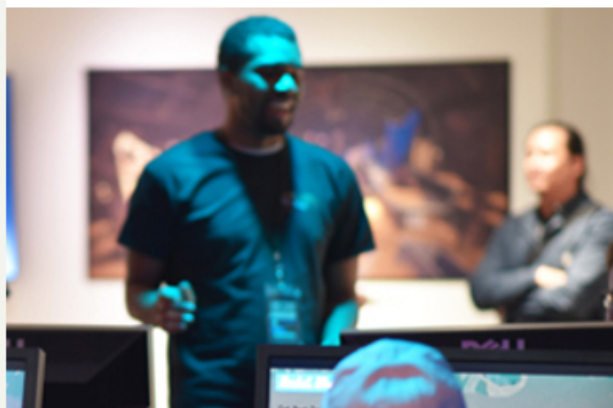

The beautiful Champlain College Montreal campus is just 90 miles north of Burlington, but it's home to some of the world's top game development companies. Your game courses will be tailored to the media and business of Montreal, giving you a unique perspective on the international game industry.

[LEARN MORE](#)

Career-focused for your future in the game industry.

One of the reasons our game development majors are so successful after graduation is our unique Upside-Down Curriculum. At Champlain, you'll take relevant game classes for your chosen major starting in your first semester and work collaboratively with other game majors, giving you a leg up over

Other game majors, giving you a leg up over the competition when you start the job hunt.
