

Hello,

Whether it's in-person, hybrid or remote, the look and feel of school is changing. And this includes your cleaning program.

Veritiv® helps reduce apprehension around these changes with expertise, training, and support to create a safe and productive learning and work environment for students and staff.

- Training and guidance on product selection and best practices
- Relationships with leading manufacturers and brands
- Streamlined purchasing programs

Interested? [Here's how we do it.](#) Contact me with questions.

Thanks,

Hello,

With all the increased focus on cleaning and hygiene, it could be time to upgrade your restrooms with touchless technology.

Veritiv's touchless offering includes towel, tissue, and skincare dispensers, along with autoflush systems. Consider using leftover COVID-19 funding for touchless upgrades to support your hygiene efforts.

Why make the switch? Here are [5 reasons](#) to go touchless.

I'm here to help you navigate current changes, while also thinking through next school year's budget.

Thanks,

Hello,

With spring and summer break right around the corner, and some schools not at capacity, now's the time to consider an upgrade to an often-overlooked asset—your floors.

From the classroom to the cafeteria, Veritiv's floor care offering includes products, tools and training to create and maintain a safe environment.

- Access to top floor cleaners, EPA-registered disinfectants and equipment
- Guidance on floor care best practices
- Ability to demo, test, and prepare for restorative cleaning
- Support to make the most of your budget and available COVID-relief funding

Interested in a demo or floor assessment? Let me know and we can get something scheduled.

In the meantime, try your hand at our fun, informative quiz to test your [Floor Care IQ](#). No matter how you score, Veritiv is here to help!

Thanks,
