

## **Apotex Pharmachem Corporate Video Script**

---

### **OUR STORY**

Since our inception in 1989, our company has been committed to developing and manufacturing a wide range of high-quality pharmaceuticals to meet the ever-changing needs of our customers. In 1996, we were proud to become a member of the Apotex Group of Companies. Today, Apotex Pharmachem is a global, fully integrated Active Pharmaceutical Ingredient research and development company.

### **A GLOBAL REACH**

Our tradition of excellence has launched our growth into Canada's largest Active Pharmaceutical Ingredient manufacturer. With production facilities that span three continents, we're a diverse and dynamic company with a vast international reach. Employing more than 1,600 educated and highly-skilled professionals, our company has offices in Canada, India, Mexico, and China.

And our worldwide footprint continues to grow. Across our global network, we're continuing to expand and refine our manufacturing capabilities to meet the needs of our customers and provide the highest quality APIs.

### **A TRUSTED PARTNER**

With over 25 years of experience, we've earned a reputation as one of the leading suppliers of Canadian Quality Active Pharmaceutical Ingredients in the industry. From regulatory and compliance, to technology development, to customer service and recruitment, our state-of-the-art infrastructure ensures the finest quality throughout our development process – a process that includes API solid state development, stability evaluation and a wide variety of synthesis methodologies. With our superior analytical abilities, we comply with industry trends before they become regulation. And we maintain North American quality standards no matter where the location, reaching more customers and spurring growth.

At Apotex Pharmachem, we believe that partnering with a fully integrated API and R&D supplier like us provides control of the entire cycle, guaranteeing accountability and delivering tangible competitive advantage to all our customers.

### **OUR COMMITMENT TO QUALITY**

As part of our commitment to producing the highest quality ingredients, we're continually upgrading our eight global manufacturing facilities. For our partners, our ability to manufacture on a global scale results in tangible benefits – like reduced risk and increased flexibility.

But the benefits to our customers and partners extend far beyond our technical and manufacturing capabilities. We also offer vast knowledge of global and local markets' regulatory and legal challenges, helping customers navigate new and emerging markets with a trusted and reliable partner.

## **NURTURING INNOVATION**

At Apotex Pharmachem, we believe in nurturing innovation. In fact, our company's quest for innovation is what drives our research and development team – a team that brought 100 inventions and 300 patents to market. We know that our customers will benefit greatly from the knowledge and expertise of our over 200 scientists and engineers. That's why we continue to invest in process and analytical R&D – an investment that will ensure leading-edge quality throughout our API development capabilities.

Inspired by a culture of innovation, our reputation for superior quality continues to grow. We're seeking out new opportunities and expanding our product lines – further establishing Apotex Pharmachem as a leading manufacturer of APIs in the global market.

## **OUR COMMITMENT TO IMPROVING LIVES**

At Apotex Pharmachem, we believe in upholding the highest standards of corporate citizenship. Our goal? To create a higher standard of living and quality of life for our employees and the communities in which they live and work. We view sustainability as an opportunity to make a difference as we grow our business for today – and tomorrow. As conscientious corporate citizens, we're seeking to promote a safe workplace and preserve our natural environment.

## **OUR RECORD OF EXCELLENCE**

When it comes to global manufacturing practice, our record speaks for itself. Across our facilities in Canada, Mexico, India and China, we hold a strong record of GMP compliance from global regulatory bodies as the US Food and Drug Administration, Health Canada, and Australia Therapeutic Goods Administration, expediting production and approval timelines and enabling our customers to bring their offerings to market sooner.

At Apotex Pharmachem, satisfying the ever-changing needs of our customers lies at the core of everything we do. We strive to not only meet, but surpass our record of excellence in the Approval, Production and Innovation of APIs.

*Apotex Pharmachem: Your trusted partner in API research and development.*
