

2nd Avenue Animal Hospital is a full-service, small animal general veterinary practice offering high-quality medicine and exceptional client service. We offer top notch veterinary care including surgery, state of the art x-ray, laser treatment, and ultrasound to the Columbus, GA and Phenix City, AL area, as well as pet boarding, grooming, and daycare! At 2nd Avenue Animal Hospital, we believe in the value of teaching and learning. Hosting veterinary students who are eager to learn allows us to contribute to our profession and is also a great way to sharpen and refresh our own knowledge and skills.

If you are a veterinary student who wants to gain experience in a high-quality small animal practice, has a positive outlook, loves connecting with clients, and you are ready to jump right in, we are the place for you! Our externship program is open to vet students at any stage of their education and relies on student-driven learning to improve clinical skills and, if interested, business understanding. We want to help prepare you to be a gratified, productive practitioner of veterinary medicine and an important member of your community.

We are located in the up and coming city of Columbus, GA. We have a veterinary clinic, which you will spend most of your time at, as well as a boarding and grooming facility that you may visit to learn what unique offerings we have there! We host externs year-round for up to 8 weeks per student, depending on your school requirements. Please contact us at least 60 days prior to your externship start date, and the sooner the better.

If you would like to participate or want more information, contact Lauren Abraham at lauren@2ndavenuevet.com.
