All AR kids should thrive. But 1 in 5 AR kids live in poverty. Arkansas should be investing in alleviating child poverty. Instead, [#ARLeg](https://bit.ly/3l1Pzvm) is considering wasting \$ on tax cuts that will largely benefit the wealthiest.

You're not dreaming when you ask for better education, poverty relief, and food for every child in Arkansas. We can make these goals a reality if we invest in our community, but tax cuts for the wealthy take millions of dollars away from Arkansans. Be the voice of the people by telling your representative how you feel about tax cuts for the wealthy. We the people say NO to tax breaks for the rich and YES to the future of Arkansas.
