

META CITY CHAIN TO LAUNCH NFT BLIND BOX PRE-SALE JANUARY 1, 2022

~~The simulation~~Simulation game Meta City Chain, ~~created~~developed by NFT + GameFi ~~and that is developed~~ based on ~~the~~ Refrarr architecture, will officially launch the NFT blind box pre-sale on ~~the official game platform~~January 1, 2022, at 8:00 pm (GMT+8) ~~on January 1, 2022. This time,).~~ The NFT blind box module will ~~provide~~offer three optional blind boxes ~~for players with a, and 100% the~~ probability of winning ~~the~~ NFT cards ~~is 100% for this round.~~ ~~The~~ The game Meta City Chain (MCC) game is expected to ~~be~~ officially ~~launched~~launch on January 20, 2022 (GMT+8), ~~and players).~~ ~~Players will be able to build their desired cities to earn money through their use previously drawn NFT cards to build desired cities to earn money previously drawn NFT cards. in the game.~~

~~As a~~ With its Web3.0 framework and distributed application ~~based on Web3.0 framework,~~ Refarrar is currently developing highly autonomous, open, and free game organizations that provides ~~offer~~ unprecedented information exchange and management ~~and value exchange~~ services ~~for to users~~ NFT game lovers. ~~It aims to build~~ The project is designed to develop a Web3.0 infrastructure and an underlying framework ~~based on~~using blockchain technology. It provides, and provides open resource services ~~to help that support~~ developers, artists, game players, and KOLs ~~simply create~~in creating their own value ~~through~~using the Web3.0 infrastructure.

~~The model~~ Web3.0 will be built on the concept of value attribution ~~will lead the development and construction of Web3.0.~~ Refarrar has always ~~followed~~worked on this ~~concept, which allows~~principle, allowing users to apply ~~their~~the value ~~owned by themselves~~they own to Refarrar at ~~will, thus~~their discretion, empowering players to create, manage and choose their own value.

~~Refarrar is currently developing highly autonomous, open and free game organizations in the game field, providing value exchange and information sharing for NFT game lovers.~~

~~Meta City Chain is a game launched by Refarrar based on GameFi. With the concept of "Play to Earn," the players of Meta City Chain~~ players would jointly collaboratively build a city adhering to their ideas. ~~In the game, in order~~ Players to construct a virtual city, ~~as a by prominent way, the players need to allocate~~ allocating lands, bosses, and employees ~~that, can be obtained through~~ acquired by drawing blind boxes or trading on markets. ~~All~~ In MCC, all the elements of MCC are NFTs, ~~they which~~ can be upgraded ~~for adding and creating the~~ to add value ~~for~~

~~themselves, and work together with others to one's own city.~~ or players can collaborate with others who own ~~NFT~~NFTs to create an ideal city.

MCC aims to build a basic Internet facility based on Web3.0, provide Web3.0 use cases to help developers, game enthusiasts, artists, and KOL conveniently uses and participate in, and create a more free and safer information and value exchange network through Web3.0.-
