

## In less than 12 months

**Digitising the Network** rolls out in NLT territories and Australia, with significant deployment of upskilling and platforms in Strategy Council territories.

**42,000+** PwC people across the network become active Alteryx users running over 5 million workflows in a 90-day period.

**Digital Fitness App** is available free in 86+ countries via Apple App Store and Google Play - in total, DFA now has over 260,000 users.

**Digital Hub** is available globally across the network.

More than 100,000 PwC people complete the global curriculum modules for **Digital Academies**.

Digital Academies go virtual, accelerating the programme in territories.

More than 3,000 **Digital Accelerators** are active across the network in 20+ territories.

**Data Platform** has been piloted globally.

**Digital Lab** is live firmwide in US/Mexico, UK, Australia, Germany, Switzerland, France, and Canada, with several other territories currently in pilot.

60+ active members in **DTN territory communications and change management** community.

**DTN microsite** nears 2000 viewers.

## FY21 Priorities

1

Digital Lab rollout to Strategy Council territories

2

Launch DTN success story gallery

3

Continued focus on Data Policy and Governance

4

More territories go live on the Data Platform

5

“Digitunity” to increase user engagement with all things digital at PwC

6

Network Badge Programme to go live in the US/Mexico, Acceleration Centres and UK

7

New focus on product sharing across the network, as a result of FY20 DTN success

8

DTN Insights Dashboard roadmap to feature new insights for global, hub and territory leaders

9

Help territories apply change management techniques to bolster Digital Upskilling behaviours

10

Introduce DTN Runbook for Readiness Framework, drive practical, consumable, measurable change for all aspects of DTN
