#### Module Four Reflection

For our project I wrote the first three paragraphs and the conclusion. The parts that worked most for me was having that open communication and setting up schedules and check ins, I loved how if I was unsure about things Mary was always there to lend a hand and she even gave me tips on running my paper through a grammar app before I turn it in. One thing that didn't work for me on this assignment was having a too busy schedule. I feel as if I should have cleared my schedule more. Next time I will research more and get a feel of my partners writing style. I feel like we wrote a pretty great paper, I fell like with the effort that I put forth for this assignment I wrote pretty decent paragraphs. It gives me more confidence going into this next paper but I think the next paper will be harder. On a scale of 1-10 I'd say I'm at about a 6.5 with confidence on my next paper.
