Recent Client Wins

Local Tours & Rentals Company

Leading a Competitive Market With Consistent Traffic & Online Bookings

As a new travel company in a competitive market, Sedona Tours & Rentals needed a way to stand out from the crowd and generate consistent online bookings.

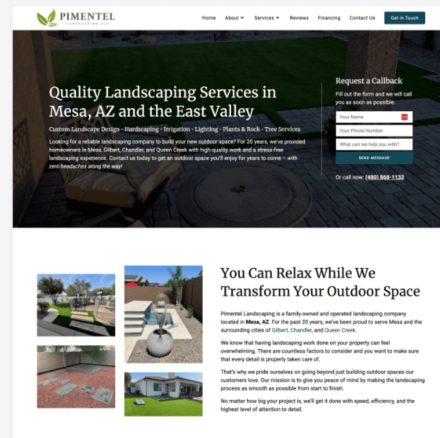

We built them a visually stunning website that drives traffic and makes it easy for customers to book online. One year later, their website continues to drive sales and has helped turn them into market leaders.

Local Landscaping Company

10-15 Qualified Leads Per Month From SEO & Web Design

Pimentel Landscaping had built up a solid reputation with their local customers. But they were tired of relying on sites like HomeAdvisor and Angie's List for new business.

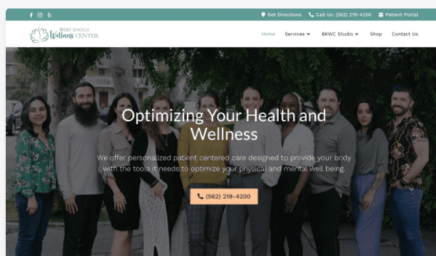

We worked with them to revamp their website and create a targeted SEO campaign to bring in more traffic. They now have a steady flow of inquiries coming in each month – and their business has expanded into multiple new service areas.

Local Wellness Center & Yoga Studio

Increased Brand Awareness & An Easy Class Booking Experience

Bixby Knolls Wellness Center was growing steadily, and needed a website to showcase their new services and allow clients to book classes in their in-house yoga studio.

What Clients Are Saying...

During the past year we have made many changes on our website and **we LEAD in our market**. We are thrilled with our bottom line, our growth, and look forward to continue working with Myles and his team at Pines Digital!

Scott Miller
Sedona Tours & Rentals

Myles totally flipped my website around and got it exactly where it needed to be. **My rankings improved across the board**. I would use him again in the future without question and couldn't recommend his services enough.

Scotty Massa
Massa Tattoo Social Club

I've worked with Myles from Pines Digital for a few projects and would highly recommend his services to any business owner looking to get real results from their website. Myles takes the time to get a great understanding of your business, your industry, and your goals. Instead of providing the usual stale online brochure, **I've seen him improve the bottom line for businesses by improving their online leads**.

Dan Bergano
Norba Design

Myles created an amazing, eye catching website for my interior design business. He was professional and punctual. He's a great wordsmith and created interesting and informative content for my website. He knew the right questions to ask and how to translate what I was saying into usable content. I highly recommend Myles to anyone looking to set up a new website or update their existing.
