

Important Announcement

Inclement Weather Alert: California Flooding

Please review and share with your teams.

Severe Flooding in California

A slow-moving storm is bringing heavy rain and widespread flooding to Southern California. Flood watches are in effect across the LA basin and San Diego, with risks of flash floods and debris flows in recent wildfire areas like Pacific Palisades and Malibu.

Why It Matters

Conditions are expected to worsen over the next several days. Please stay alert and prepared.

Emergency Checklist

- Review the [Disaster Response & Recovery Policy and Plan](#)
- Confirm communication channels are tested and reliable
- Stock emergency supplies
- Encourage teammates to create a personal hurricane preparedness plan
