

Thrive Naturals Super Brain Renew – Think better, Live better.

Thrive Naturals' are known for their product line of best organic supplements. They tend to make 100% natural, organic and vegetative formulas without artificial stimulants, additives or fillers.

Thrive Naturals' Super Brain Renew is the most advanced and the most potent brain supplement, available in the market today. It contains the all the essential supporting ingredients for the maximum brain strength; which may involve improved cognitive functions, better memory retention, mental clarity and a more refined focus.

Brain is arguably the most important organ of the human body. It controls and coordinates actions and reactions. It allows us to think, feel and enables us to have memories and experience emotions. It has glands that secretes hormones that coordinate and control all the other functions of the body. Thrive Natural's Super Brain Renew is an advanced formula that acts as a food for brain.

One bottle of Thrive Naturals' Super Brain Renew contains 60 vegetarian capsules, a 30-day supply.

Suggested Use:

1 capsule, twice a day. 1 capsule in the morning and 1 capsule at night with a full glass of water

What are Cognitive Abilities?

For the better understanding of this product, one must know that what are cognitive abilities and how necessary are they, in our day to day life.

First of all, what is cognition? Cognition has to do with how a person understands the world and acts in it. It is the set of mental abilities or processes that are part of nearly every human action while we are awake.

Cognitive abilities are brain-based skills we need to carry out any task from the simplest to the most complex. They have more to do with the mechanisms of how we learn, remember, problem-solve, and pay attention, rather than with any actual knowledge. For instance, answering the telephone involves perception (hearing the ring tone), decision taking (answering or not), motor skill (lifting the receiver), language skills (talking and understanding language), social skills (interpreting tone of voice and interacting properly with another human being).

Major Components of Super Brain Renew:

Following are some of the major components of the Thrive Naturals' Super Brain Renew which are also called as the 'Essential 5 brain health ingredients:

- DHA Omega 3
- Huperzine A
- Phosphatidylserine
- Bacopin

- N-Acetyl L-Tyrosine

Apart from the Essential 5 ingredients, it also contains some herbs which are known for the benefits of brain. For example, Bacopa, Vinpocetine and Phosphatidylserine.

Bacopa is an herb that boosts the memory skills. It has been used over a long period of time for soothing and stabilizing the Central Nervous System (CNS). This herb also inhibits the stress hormone called Cortisol. It in turn improves the thinking abilities especially under the stress conditions.

Vinpocetine is a natural herbal extract from a plant called periwinkle plant. It boosts the flow of blood to the brain cells resulting in increased metabolism within the cells due to adequate supply of oxygen. This increase in mental energy required for proper functioning of the brain cells hence improves memory skills and cognitive functions.

Phosphatidylserine stimulates memory receptors and reduces mental decline that is related to aging.

How Super Brain Renew works?

This supplement contains pure and organic ingredients that reduce the risk of memory loss, brain fog and trouble focusing that arise due to aging. The cognitive stimulants in this product improve the brain cognitive functions. It also stimulates the action of acetylcholine, which avoids a person to become addicted to the product as people usually get addicted to brain supplements.

This product also contains antioxidants which reduce the free radicals that are known to damage the brain cells and its productivity. The proprietary blend of ingredients also improves the membrane structure of the brain cells thereby allowing better transmission of impulses. Blood flow to cells of the brain is increased; hence more oxygen is supplied to the cells promoting cellular respiration. This boosts mental energy which is necessary in improving concentration, alertness and general mental performance.

Key Features & Benefits:

- **Essential 5:**

Maximum strength and most potent dose of high quality brain and memory ingredients with all of the Essential 5: DHA Omega 3, Huperzine A, Phosphatidylserine, Bacopin and N-Acetyl L-Tyrosine

- **Safe:**

No harmful or useless ingredients, fillers, binders or synthetics

- **A multivitamin supplement:**

A complete array of **39 vitamins and nutrients**

- **Vegetarian Capsules:**

The capsules are organic and herbal.

- **Focus:**

It sharpens your focus. You are able to have a better concentration span and are also able to perform tasks in a better way.

- **Mental Clarity:**

It helps in the mental clarity. It means that **mental clarity** is present when we are awake and focused without being stressed. Conversely, things that are known to hinder mental clarity are: Having a throbbing headache or feeling faint enough to pass out. Super Brain Renew helps to block all the hindrances which block the mental clarity

- **Mood stimulator:**

It also acts a great mood stimulator which is due to the fact, that there are various glands that present in brain and they secrete hormones. Super Brain Renew helps in the better working of those glands, so that adequate amount of hormones is secreted.

- **Improves cognitive skills:**

Cognitive abilities are brain-based skills we need to carry out, which may be any task from the simplest to the most complex. They have more to do with the mechanisms of how we learn, remember, solve problems or pay attention, rather than with any actual knowledge. So, Super Brain Renew also helps to improve such cognitive skills.

- **Supports in memory retention:**

Memory retention is when a person can recall or retain experiences based on the mental process of recognition or retention of information. Usually people tend to lack this ability as they age. But now, with the advanced brain boosting supplement, 'Super Brain Renew', people can retain the memory for a longer period of time.

Precautions:

- The product should not be used by either pregnant or nursing women.
- Individuals with known medical conditions are advised to seek medical advice before using Super Brain Renew.
- Keep away from the reach of children

Product Safety:

We should be aware that some brain and memory products we encounter, have unnecessary ingredients, like: silica, titanium dioxide, and silicon dioxide. They act as fillers. They may not necessarily dangerous for you, but they can have side effects that are unnecessary and that can be avoided by selecting a better formula.

Thrive Naturals keeps their formula clean and pure, which is the foundation of their natural brand. They use the highest quality ingredients in the proportions that have been shown in studies to be effective. The ingredients in Thrive Natural's Super Brain Renew have no known side effects or harmful interactions with other medicines.

Why Choose this product?

There are various other brain boosting supplements present in the market but Thrive Naturals' Super Brain Renew excels them all. They have the following characteristics that set them apart from the rest of the similar products.

- 100% Pure & Natural Ingredients
- Vegetarian Capsules
- No Synthetic Fillers or Binders
- No Gluten
- No Animal By-Products
- 3rd Party Tested
