Video Editor | Content Creator | Motion/Visual Editing

I've been professionally editing video, including effects work, color correction, motion/visual editing and exporting 4K footage for over 10 years. Either for my own endeavors or through clients with work such as drone videography editing, real-estate/drone editing, commercial editing, promotional videos, social media, short form content, music related content, corporate/business videos & content creation.

Work Experience

Remote | July 2025-Present

AirDragon (Drone Filming Company) _ *Video | Motion/Visual Editor*

Taking footage sent to me through Google Docs by AirDragon and looking through all their collective video. As I find the best clips to use for their clients work, I edit it down in a cohesive and streamlined way. I will then stabilize the drone footage, color correct it, balance the audio and export it into a 4K, M4V File. I then send it back to them through Google Docs.

Remote | July 2021 - Present

MattysArtSolutions _ *Content Creation Editor*

Editing content for my creative studio business, "MattysArtSolutions!"

Creating content and editing it down into Instagram Reels, TikToks & YouTube Shorts which get thousands of views per video.

Also creating & editing long-form videos for comedy, drawing time-lapses & animated music videos. Taking my animations and editing them into backgrounds of my design.
