Brooklyn duo **ANIMÁL** releases their second single **"A Place In The Sun"** following their breakthrough hit **"Let Me Down"** earlier this year. Both contribute to their highly anticipated 12 track LP **FLIGHT** which set for release on June 12th. Co-produced and mixed by **Pluko**, these Brooklyn boys are already making steadfast gains in their early career.

A Place In The Sun

"A Place In The Sun" is an emotional, beautiful, and full of vibes. The combination of all the sounds are layered so perfectly. Similar to **Odesza**, Furthermore, **ANIMÁL** does not necessarily follow in the traditional EDM mold. Inspired by alternative-rock and indie-electronic genres but still employs software in production. **ANIMÁL**'s music utilizes synthetic instruments and combines highly pitched female vocals providing music that you can feel shimmer down to your bones. I have no doubt that their future sets will have live energy and feel that allows listeners to enter their own magical auditory world.

Get To Know ANIMÁL

*Artist Bio

ANIMÁL is an electronic-rock duo based in Brooklyn, New York. The two met in high school in Wisconsin, where they both discovered their passion for music. Heavily influenced by various genres, ranging from jam bands to hip hop to electronic dance music, the two itched for a sound they couldn't quite find in the vast sea of music out there today. So, they created it. **ANIMÁL** blends traditional alternative rock with electronic dance music through a unique layering of electric and bass guitars, textured synthesizers and melodic vocal sampling. The duo's musical abilities allow them to do more than "just press play," utilizing their instruments to create an authentic and engaging musical experience. Their songs have live energy and feel that allows listeners to enter their auditory world as intended - big, raw, and inspiring.
