In an unexpected genre shift, [NOISIA's](#) Nik Roos and [The Upbeats'](#) Jeremy Glenn recently teamed up on the new collaborative side project, Body Ocean. The industry remained left wondering when and where they would strike next since debuting the alias last year. We now find the two revolutionary producers getting their hands dirty on this sleek deep house rendition—yearning for your attention. Additionally, this re-work gives fans plenty of content to meet their hearts' desires.

Also, be sure to check out their playlist [Body Language on Spotify!](#) It's their selection of dance music tracks and updated every two weeks!

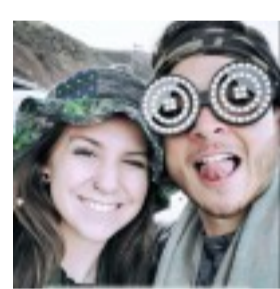

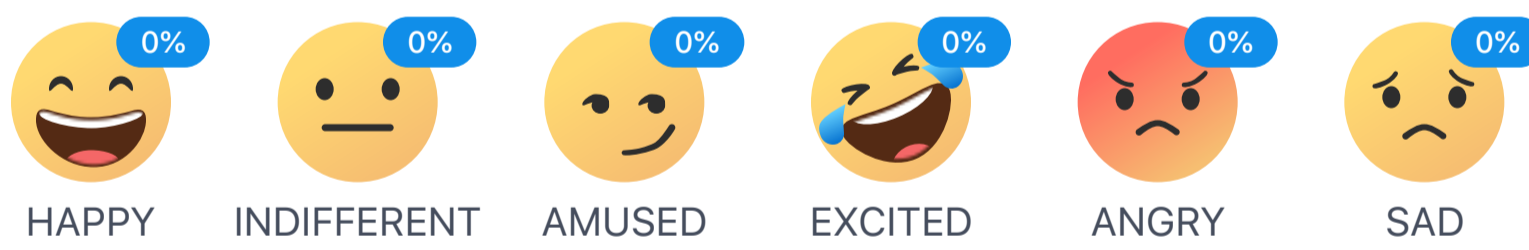

Who Is Body Ocean?

They are two friends from opposite ends of the globe: Jeremy from New Zealand and Nik from the Netherlands. Body Ocean is us exploring dance music together. Meeting through drum & bass and forming a friendship over musical taste, they began to explore each other worlds. Body Ocean's inspiration stems from [Green Velvet](#) and the *DirtyBird* team. That musical freedom and 'genre-agnostic attitude provided an exciting departure point for their journey of exploration.

"To us, this project feels like the musical equivalent of rushing out onto the beach to dive headfirst into the rolling waves, instinctively surrendering to the dance between your body and the ocean. Hence the name."

What is your reaction?
