It's time to celebrate the release of Jantsen's & Mersiv's new track 'Get Crazy' via WAKAAN.

Jantsen and Mersiv have finally debuted their highly-anticipated collaboration, "Get Crazy." This was one of those unreleased tracks that bass fans have been itching for over a year now. It's like each of their own signature styles are two puzzle pieces that fit perfectly together. Released on esteemed bass label WAKAAN, 'Get Crazy' is another crowd-pleaser for listeners to enjoy (virtually) for now. Honestly, the track's title says it all. There's no doubt that when this drops once shows return, the crowd will go absolutely crazy.

'Get Crazy' is absolutely massive

Jantsen and Mersiv really did it with this one. The track starts out with energetic wubs that make you want to bounce but once that build up starts you know you are in for something nutty. The first drop is an absolute masterpiece. It hits hard and heavy with explosive bass yet still keeps the wubs present. Talk about a perfect mixture of head-banging filth that you can still wobble out to. Geniuses! The second drop is even crazier. Its the most disgusting teeth grinding bass-melting your existence. Adding in the looped vocal sample and screaming sirens, 'Get Crazy' is guaranteed to make you go crazy.
