PhaseOne - Enemy (ft. Shane Told Of Silverstein)

Australian music producer **PhaseOne** captures a style like no other. Perfectly fusing hard bass with heavy

grounds, PhaseOne steps into his melodic side with his most recent release, 'Enemy' featuring **Shane Told**

metal, so naturally, he never disappoints with every track he creates. Moving beyond his metal step

from Silverstein. The energy of this track is palpable. A perfect combination of melodies, vocals, and

breathtaking drops in unison with a guitar lead. 'Enemy' is filled with character. Furthermore, if you really want to get into the feels, Disciple dropped a music video for 'Enemy.' Stream it here

no limits, and he's gone to show how versatile his style is. 'Melody Lives On' is overall an incredible tune

with a smooth, unique flow of beautiful sounds. Frank was also just featured as a part of Excision's own

Subsidia Records, with 'Transcend' landing on the compilation album: Dusk Vol. 2.

UBUR is an innovative dubstep/ bass producer constantly breaking boundaries. He has been a staple on

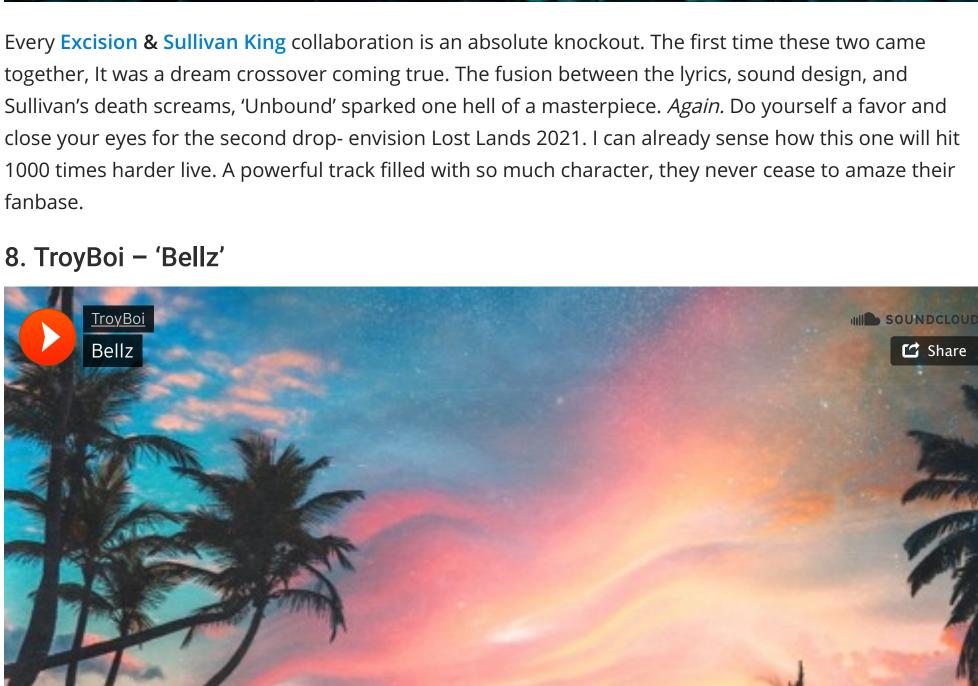

growl basses, that relentless signature UBUR sound. Just recently, UBUR revved up 2021 with his first EP of

the new year, Relinquish. There's so much variety for this four-track EP, all second to none. Especially the

major festival lineups and nation-wide tours for a while now, and with his constant output of bangers

(especially during COVID), his fan base has grown exponentially. UBUR is also known for his signature

fanbase.

UNBOUND

HE\$H discovered dubstep around age 13 & from then on, HE\$H has become a breed of his own. His

authenticity thrives through his music and personality. Over the years, the prodigy has caught the

attention of Excision, Subtronics, and 12th Planet. Now, HE\$H is one of the hardest out there and

it still slaps hard. It's always cool to see other inspiration from artists.

established the label FUCKSHIT Records with Bommer. His sound design is like a heavyweight explosion

that just went off in your face. If your part of his fan base, you know what I mean. His newest release, 'Got

It On,' is slightly different from his usual, perhaps showing a 'chiller' side of him. The flow of it is dope, and

TroyBoi's releases, you never know what to expect, but every time its fire. Well, he's back at it again and

just released V!BEZ Vol. 4 EP via his very own label, T Dot. 'Bellz' is the EP's first release, and it sends major

vibes back to TroyBoi's Left Is Right EP. Those good old 2017 dance parties were something else. TroyBoi

'Ring My Bell.' Somehow he can still keep the trap vibe without using the generic trap noises while bringing
